

CITY COUNCIL AGENDA
AFTON CITY COUNCIL CHAMBERS
3033 St. Croix Trail South
TUESDAY, December 19, 2017
7:00 P.M.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

- 3. ROLL CALL**
- _____ Mayor Bend
 - _____ Council Member Nelson
 - _____ Council Member Ross
 - _____ Council Member Richter
 - _____ Council Member Palmquist

4. APPROVAL OF AGENDA

- A. Approval of the Agenda for the Regular City Council Meeting of December 19, 2017 -

5. APPROVAL OF MINUTES

- A. Minutes of the November 21, 2017 Regular City Council Meeting-
- B. Minutes of the September 14, 2017 City Council Work Session-
- C. Minutes of the September 8, 2017 Special City Council meeting-
- D. Minutes of the August 17, 2017 City Council Work Session

6. PUBLIC INPUT

Citizens may share their comments or concerns on any issue that is a responsibility or function of the Afton City Council, whether or not the issue is on the Agenda. Persons who wish to address the Council must fill out a Comment Card before the meeting begins and give it to the City Administrator or Council Chair. The Council Chair will request you to come to the podium, state your full name and address and present your comments. You are encouraged to limit your presentation to no more than 3 minutes. The Council Chair reserves the right to limit an individual's presentation if it becomes redundant, repetitive, overly argumentative, or if it is not relevant to an issue that is part of the City of Afton's responsibilities. The Council Chair may also limit the number of individual presentations to accommodate the scheduled agenda items.

7. REPORTS/PRESENTATIONS

- A. Sheriff's Monthly Report -
- B. Tom Niedzwiecki, Budget Report -
- C. Lower St. Croix Fire District Report -

8. 2018 BUDGET AND TAX LEVY HEARING

- 1. Adopt Final 2018 Budget - **Resolution 2017-54**
- 2. Adopt Final 2018 Tax Levies - **Resolution 2017- 55**

9. CONSENT AGENDA

All matters listed on the Consent Agenda are considered to be routine by City Council and will be enacted in one motion. If a member wishes to discuss an item, that item will be removed from the Consent Agenda and considered separately. (Roll Call for Consent Agenda approval if Resolutions included):

- A. Just and Correct Claims
- B. 4M Fund Transfer - NOVEMBER - **Resolution 2017-56**

10. CITY COUNCIL BUSINESS

A. Planning Commission Report – (PC Chair Report & Draft PC Minutes)

1. Comprehensive Plan Update
2. **Note: In response to a request from the applicant, the application by USS Rambo Solar LLC for a text amendment to the Zoning Code to allow “solar farms” in the Agricultural district will not be considered by the Council until the February 20 regular Council meeting.**
3. 2018 Planning Commission Meeting Schedule

B. Engineering Report – (Engineer Staff Report & Council Update)

1. Downtown Village Improvement Project
 - a. New Decorative Street Lights
2. 2018 Fee Schedule for Engineering Services
3. Planning for 30th Street Improvements in 2018

C. Administration –

1. Request to Allow Horses on the Cartway Adjacent to 14933 Afton Boulevard
2. Parking of Public Works Vehicles at City Garage
3. Paperless Council Meeting Agendas Technology for Council Members
4. Afton-Lakeland Trail
5. Preservation and Land Conservation Development (PLCD) and Planned Unit Development (PUD)
6. Resolution of Appreciation to Augsburg University MBA Students for Their Assistance with Afton’s Branding Project – **Resolution 57**
7. Pay Voucher No. 8 from Geislinger and Sons, Inc. for the Downtown Improvement Project
8. Pay Request No. 8 from Ellingson, Inc. for the Wastewater Treatment System Project
9. Update Regarding Agreement with CenturyLink to Provide City-Wide High Speed Internet Service
10. Natural Resource and Groundwater Committee Member Reappointments

D. Committee Reports -

1. Public Works
2. Personnel
3. Parks
4. Heritage Preservation Commission / Design Review
5. Natural Resources and Groundwater

10. COUNCIL, CONSULTANT AND STAFF REPORTS, ANNOUNCEMENTS AND UPDATES

- A. Ward 1 Council Member Palmquist
- B. Ward 2 Council Member Richter
- C. Ward 3 Council Member Ross
- D. Ward 4 Council Member Nelson
- E. Mayor Bend
- F. City Attorney Knaak
- G. City Administrator Moorse

11. ADJOURN

A quorum of the City Council or Other Commissions may be present to receive information at, but not limited to, any of the following meetings: Planning Commission; the Public Works Committee; Parks Committee; Design Review and Historic Preservation Commission; Lower St. Croix Cable Commission; LSCWMO; MSCWMO; I-94 Corridor Coalition and the 5-City Mayor’s Alliance.

PROCEEDINGS OF THE AFTON CITY COUNCIL
CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

DRAFT City Council Regular Meeting Minutes
November 21, 2017
Afton City Hall
3033 St. Croix Trail
Afton, MN 55001
7:00 P.M.

10
11
12 **1. THE MEETING WAS CALLED TO ORDER** at 7:00 P.M. by Mayor Richard Bend

13
14 **2. THE PLEDGE OF ALLEGIANCE** – was recited.

15
16 **3. ROLL CALL:** Mayor Richard Bend, Council Members Nelson, Richter, Palmquist, Ross. **Quorum Present.**

17
18 **ALSO PRESENT:** Nick Guilliams, (City Engineer), City Administrator Ron Moore, City Attorney Fritz Knaak, City Accountant Tom Niedzwiecki (for last portion of the meeting), City Clerk Julie Yoho, Planning Commission Chair Barbara Ronningen.

19
20
21
22
23 **4. APPROVAL OF AGENDA** – [some agenda items were discussed out of sequence]

24 **A. Agenda for the Regular City Council Meeting of November 21, 2017**

25 Add items: 7a. “Applicant for Parks Committee”; 9c11. “Appointment to Parks Committee”; 9c12 “Replacement of office computer”; 9c13 “Schedule work session”

26
27 **Motion/Second: Bend/Ross To approve the agenda as amended for the November 21, 2017 Regular City Council Meeting. Passed 5-0.**

28
29
30 **5. APPROVAL OF MINUTES**

31 **A. Minutes of the October 17, 2017 Regular City Council meeting.**

32 **Motion/Second: Palmquist/Nelson To approve the minutes of the October 17, 2017 Regular City Council Meeting. Passed 5-0.**

33
34 **B. Minutes of the October 16, 2017 City Council Work Session**

35 **Motion/Second Nelson/Ross To approve the minutes of the October 16, 2017 City Council Work Session. Passed 3-0-2 (Richter & Palmquist abstain due to absence)**

36
37
38
39 **6. PUBLIC INPUT –**

40 Mark Schmidt, Neal Ave South. Expressed concern about PFCs in surrounding area wells. Recommends the city start testing wells on NW border and spot check others. Is concerned they have spread further than claimed.

41
42
43 Jennifer Lenander, regarding her variance request. Stated they bought land despite knowing setbacks and the Ordinance does not require hardship to allow for variance. Would like variance for the pool as well.

44
45
46
47 **7. REPORTS/PRESENTATIONS -**

48 **A. Sheriff’s Monthly Report (taken out of order)**
49 none

50
51 **B. Tom Niedzwiecki, Budget Report**

52 Tom provided information on the financial report and supplemental detail of expenses paid out in October.

53 Council member Ross indicated he would like to have invoices matched with records for the construction
54 projects.
55

56 **C. Lower St. Croix Fire District Report**

57 Mayor Bend reported that an independent study cleared the fire chief of any wrong doing.
58

59 **D. Nancy Kafka, Executive Director, Belwin Conservancy**

60 No report
61

62 **E. Applicant for Parks Committee (taken out of order)**

63 Erin Smillie
64

65 **8. CONSENT AGENDA**

66 **Motion/Second: Palmquist / Richter to approve the consent agenda as presented including Resolution**
67 **2017-49. Roll call. All aye, passed 5-0.**

68 **A. Just and Correct Claims**

69 **B. 4M Fund Transfer – October – Resolution 2017-49**
70

71 **9. CITY COUNCIL BUSINESS**

72 **A. Planning Commission Report – (PC Chair report & Draft PC minutes)**

73 1. Charlie and Danielle Wamstad Minor Subdivision Application at 1987 Manning Avenue and the 19
74 acre parcel to the south with PID # 18.028.20.22.0002 – **Resolution 2017 – 50**
75

76 Administrator Moorse stated that Charlie and Danielle Wamstad have applied for a minor subdivision to
77 divide the existing two parcels under their ownership - one at 1987 Manning Avenue and the other with
78 PID# 18.028.20.22.0002 - with a total of 39.44 acres, to create three parcels. One of the three parcels is
79 proposed to be 29.425 acres, and the other two parcels are each proposed to be 5 acres. Valley Creek runs
80 through two of the parcels. A survey showing the proposed new lots is attached. The proposed parcels
81 meet all requirements for a conforming lot, including the minimum 5-acre lot size, 2.5 acres of buildable
82 area, 300 feet of frontage on a public road and access directly onto a public road. The property owners
83 previously obtained a variance to allow a driveway to serve the large northerly parcel through an easement
84 to 22nd Street. This enabled the access to be moved away from the Manning Avenue/Valley Creek Road
85 intersection to eliminate a conflict point at that intersection.
86

87 Council member Palmquist asked about the state of Valley Creek in this area. (It is intermittent and in
88 flood zone.)

89 Council member Richter recalled the previous variance for the driveway here for farmland access. The
90 driveway will not be able to be used to service any other parcels here in the future.

91 Chair Ronningen noted that is in the Ag Zone. Unless the zoning is changed it cannot be divided further.

92 **Motion/Second Bend/Nelson To approve Resolution 2017-50 approving the Charlie and Danielle**
93 **Wamstad Minor Subdivision Application at 1987 Manning Ave with findings and conditions as**
94 **noted and recommended by the Planning Commission. Roll call, all aye. Passed 5-0.**

95 **Findings**

- 96 1. The subject property is located in the Agricultural zone, as is all property surrounding
97 it
- 98 2. The Agricultural zone allows residential use with five-acre minimum lot size and a
99 density of three lots per quarter-quarter section
- 100 3. The proposed subdivision meets all subdivision and density requirements
101

102 **Conditions**

- 103 1. Easements as required by the City Engineer shall be granted

- 104 2. All drainage and utility easements shall be subject to the review and approval of the
105 City Engineer.
- 106 3. All grading, drainage and erosion control issues shall be subject to review and approval by the
107 City Engineer, and by the Valley Branch Watershed District if they meet permit thresholds.
- 108 4. Park dedication requirements shall be satisfied at the time of final subdivision approval in
109 accordance with Section 12-1270 of the Subdivision Ordinance
- 110 5. When a new home is to be constructed on Parcel B or C, a permit for an individual
111 septic system to serve the new home shall be obtained from the Washington County
112 Public Health Department at the time of application for building permit for the new
113 home, and all requirements of the septic permit shall be met.
- 114 6. All driveways shall comply with Section 12-84 of the Zoning Ordinance and shall be
115 subject to review and approval by the City Engineer.
- 116
- 117

118 2. Duane and Jennifer Lenander Variance Application at 12468 Meadow Bluff Trail – **Resolution 2017-**
119 **51**

120 Administrator Moorse summarized the application: Duane and Jennifer Lenander have applied for a
121 variance at 12468 Meadow Bluff Trail to allow a side yard setback of 30 feet for a pool and 32.6 feet for
122 a house vs. the required setback of 50 feet to enable the construction of their proposed house and pool
123 on the parcel. The parcel is located in the Cedar Bluff development, which is in the Agricultural zoning
124 district. All of the lots in the Cedar Bluff development are substandard, in that they are less than five
125 acres and have less than 300 feet of frontage on a public road. After the Cedar Bluff subdivision was
126 approved, the developer had requested that the side yard setback be reduced, due to the smaller size of
127 the lots, and due to the ordinance language that allowed exceptions to setback requirements for lots with
128 substandard size and/or width in the Rural Residential zoning district. The Council had indicated that
129 they would not provide a general reduction in the side yard setback, but would potentially consider a
130 variance for a particularly narrow lot on a case by case basis.

131
132 The lot at 12468 Meadow Bluff is 2.53 acres and has a width that ranges from 144 and 164 feet. The lot
133 is adjacent to a power line easement on its east side, which is where the variance is being requested.
134 The applicant is proposing a house and pool that are 32.6 feet and 30 feet from the east property line
135 respectively vs. the required 50 foot setback. (The survey incorrectly shows the pool at a 28.2 foot
136 setback. The pool is proposed to have a 30 foot setback.) The applicant has provided a narrative as well
137 as the Variance Questionnaire addressing the need for the variance and the variance criteria.

138
139 Council member Richter asked the applicant if she wants to have the pool included in the variance request.
140 At the Planning Commission meeting she had indicated the house was the main request.
141 Jennifer Leander, Applicant, replied that she wasn't asking for a separate variance. She would like the
142 pool to be behind the house at a 32.9' setback.

143 Council member Palmquist stated he visited the site and watched the planning commission meeting video.
144 The lot is substandard and unique with the power easement there. He has no problem for the variance to
145 include pool.

146 Council member Richter asked the Planning Commission Chair if that would have changed the vote for
147 the house if the pool was included?

148 Chair Ronningen replied that they were told there were 2 variances. The thinking was that the pool was
149 not essential and there was no reason to provide a variance for a pool. The house could be orientated
150 differently to fit within the setback. The lot is very out of compliance.

151 Council member Palmquist noted that one thing to look at is how it fits in with community. The house
152 could be orientated differently but the way it's proposed is probably best way to fit it in.

153 Council member Richter agrees with the house placement, but also agrees pool is secondary. If pool can
154 be accommodated within the ordinance that would best.

155 Council member Nelson stated he feels the placement of the house facing the cul de sac makes sense. The
156 pool also makes sense to have behind the house. The pool not required but he has no problem with
157 approving variance for both.

158 Mayor Bend stated that from a procedural standpoint, he voted against the Save a Tree application with
159 the power line easement because of the precedent it would set. He can see approving this one due to
160 precedent set with the passing of the save a tree variance. Effectively they have a large setback due to
161 powerlines.

162 Council member Richter stated that variances are for difficulties not caused by the landowner.

163 Mayor Bend pointed out that the language that used to state “hardship” has since modified to
164 “difficulties”.

165 City Attorney Knaak stated that the standard has changed for variances and it has become a gray area.
166 Now if there is practical difficulty you can grant variance. There has been much criticism against the new
167 standard.

168 Mayor Bend stated he feels residents should stand equal with businesses and this is similar to the Save-a
169 Tree request.

170 Council member Ross noted that the distance for the pool setback is 28.2, 4 feet closer than the house.

171 Mayor Bend recommended changing the resolution to add “power line easement of 200’ wide adjoins
172 parcel to east which provides a buffer”

173 Chair Ronningen noted this is already in the Findings as number 1

174 **Motion/Second Palmquist / Nelson to approve Resolution 2017-51 for the Lenander Variance**
175 **request at 12468 Meadow Bluff Trail as amended with Findings and Conditions noted. Roll call:**
176 **Nelson aye, Ross aye, Bend aye, Richter nay, Palmquist aye. Passed 4-1.**

177 Findings

178 The following is a list of recommended findings. The Council may want to revise or add findings.

- 179 1. The lot is adjacent to a power line that runs north/south on the east side of the lot and
180 extends 150 feet to the east of the lot, which provides a buffer from future development to
181 the east.
- 182 2. The parcel is located in a Planned Agricultural Unit Development (PAUD) subdivision
183 that was approved with substandard lot dimensions that would not be approved under
184 current ordinances.
- 185 3. The subject property is located in the Agricultural zone, as is all property surrounding
186 it
- 187 4. The Agricultural zone allows residential use with five-acre minimum lot size, 300 feet
188 of frontage on a public road and a 50 foot side yard setback.
- 189 5. The lot at 12468 Meadow Bluff Trail is 2.53 acres in size and has a width that ranges
190 from 144 and 164 feet.
- 191 6. The proposed house and pool are 32.6 feet from the east property line vs. the required
192 50 feet.
- 193 7. The applicant is proposing a house measuring a total of 3,175 square feet.
- 194 8. While the zoning code includes an exception to allow a side yard setback of 10 feet for
195 substandard lots with a width less than 200 feet in the Rural Residential zone, the code does
196 not include this exception for lots in the Agricultural zone.

- 197
- 198 3. Comprehensive Plan Update
199 The Planning Commission will hold a workshop on Nov 29th, public hearing in January

200

201 **B. Engineering Report – (Engineer Staff Report & Council Update)**

- 202 1. Downtown Village Improvement Project
203 Nick Guilliams reported that the majority of paving is done. Crews are working to get lighting and levy
204 work done.
205 Council member Ross stated he would like to have the lights working before the December 1 tree lighting.
206 Also have the old lights removed when the new ones are in operatons. Suggested having a light ceremony.

Motion/Second Palmquist/Ross to authorize staff to contact the power company to decommission the old cobra lights as soon as others are operational. Motion passed 5-0.

C. Administration –

1. Highland Sanitation Fee Increase Proposal

Administrator Moorse explained the Highland Sanitation proposed 2018 fee schedule increase for solid waste and recycling services. The proposed rate increase is made up of two elements. One is related to an increase in the tipping fees at the Ramsey/Washington County R&E Center from \$58 per ton to \$65/ton. The other is a COLA increase to reflect increased operating costs. Highland stated that their proposed 2018 increase in disposal costs is based on “compiled data on 20 different collection days in 5 different months and over 155 tons of trash collected; the resulting average weight per gallon was 0.58 lbs.” The sampling was done during the months of January, February, May June and August of 2017. The trash tonnage that Highland reported to Washington County for the City of Afton in 2015 was 884.56 tons and in 2016 was 846.51 tons, a decrease of 38.05 tons between the two years. Using the per gallon weight that Highland has estimated and a household count of 1027, it would be expected that the 2016 tonnage would have been between 1,487 tons (all 96 gallon carts) and 991 tons (all 64 gallon carts). Both are significantly higher tons than the 846.51 tons Highland reported in 2016. Using the actual tonnage from 2016, the actual disposal costs will be significantly lower than the costs reflected in the proposed disposal rates.

Bobby Stewart, Highland Sanitation, explained further how the total increase was calculated.

Motion/Second Bend/Nelson To approve 2018 Highland Sanitation fee increase of 4% per customer for all cart sizes, 4% across the board for all services, 2% increase for yard waste.

Discussion

Bobby noted there are tons of recyclables in the trash, even with the switch to weekly recycling. People don’t like the hassle of recycling. If residents recycle more they can go down to a lower can size which costs less. Organics and food waste are also large part. Afton House is recycling organics, could perhaps do a pilot test downtown with a container downtown to gauge local interest. The ‘get caught recycling’ program seemed to be successful.

Council member Ross noted that Highland was chosen based on price and customer service.

Council member Palmquist stated he was surprised to see cost of living request since this contract was just done 1 yr ago.

Motion amendment Bend/Nelson Amend motion to approve 2018 Highland Sanitation fee increase to 5% across all sizes. Passed 4-1.

2. Change order for Deputies Facility

The Council informally authorized two change orders for the Deputies Facility, to be formally approved at the Council meeting. In addition, a change order is needed for the cost of a trench for extending electric service to the building. Because the Council approved an initial change order at its September 19 meeting, the change orders to be approved at this time are numbered 2, 3 and 4.

The change orders are as follows:

2. Concrete work at the front building entrance, at the side doors to the two garages and at the driveway entrance: \$2,376
3. Relocation of the natural gas heater from the old downtown public works garage to the new public works garage: \$500
4. Trench for electric service to building: \$715

Motion/Second Richter/Ross To approve change orders 2, 3 and 4 for the Deputies Facility in the total amount of \$3,591.00. Passed 5-0

3. Proposal for Permanent Installation of a security System at Wastewater Treatment System Site

Motion/Second Nelson/Palmquist To approve proposal for permanent installation of the security system at the wastewater treatment system site in the amount of \$3,585.00. Passed 5-0.

4. Liquor License Renewals
Motion/Second Nelson/Ross To approve the 2018 Liquor License renewals for BJS Restaurants LLC dba the Lumberyard Pub and the Afton St. Croix Co dba Afton House Inn. Passed 5-0.

5. Withdraw from Gateway Corridor Commission – **Resolution 2017-52**
Motion/Second Nelson/Palmquist To adopt Resolution 20017-52 withdrawing from the Gateway Corridor Commission. Roll Call, all aye, passed 5-0.
Council member Nelson noted we'll still get updates and packets.

6. Prepayment of Assessments and Accrued interest
Motion/Second Palmquist/Nelson To refund interest charges for those who prepaid assessments after the 30 day no interest period.
Mayor Bend stated that the correct procedures were followed
Council member Palmquist felt it was confusing, other cities provide a bill.
Motion Vote: passed 5-0.

7. Designation of 2018 election polling place – **Resolution 2017-53**
Motion/Second Richter/Nelson to approve Resolution 20107-53 designating Shepard of the Valley Lutheran Church located at 14107 as the polling place for Wards 1,2,3, and 4 for all elections in 2018. Roll call, all aye, passed 5-0.

8. Demolition of Public Works garage adjacent to Afton Historical Museum
Motion/Second Palmquist/Nelson To authorize demolition of the old public works garage at a cost of \$3500 and spend up to \$1,000 to put class 5 gravel down for parking area. Passed 5-0

Council member Nelson left the meeting at 9:30 pm due to prior commitment

9. Pay voucher No. 7 from Geislinger and Sons, Inc.
Motion/Second Palmquist/Ross To approve Pay Voucher No. 7 from Gieslinger and Sons Inc for the Downtown Village Improvement Project in the amount of \$921,207.69. Passed 4-0.

10. Pay Voucher No. 5 from Park Construction
Motion/Second Palmquist / Richter To approve Pay Voucher No. 5 from Park Construction Co for the 2017 Pavement Management Project in the amount of \$36,101.54. Passed 4-0.

11. Parks Committee Appointment
Motion/Second Richter/Bend To appoint Erin Smillie to a 3 year term on the Parks Committee expiring March 31, 2021. Passed 4-0.

12. Computer replacement
Motion/Second Bend/Palmquist To approve replacement of the Office Assistants desktop computer with an HP Business Desktop Prodesk G4 at a cost of \$1133. Friendly amendment (Palmquist) to add up to \$200 for a new monitor. Passed 4-0.

13. Work session
December 5 at 5:00 the City Council will hold a work session to discuss Engineering services for 2018 and the Afton Creek Preserve concept alternatives. There will be a closed session for the Afton Marina assessment appeal. December 11 at 7:00 is the City Council meeting with Augsburg.

D. Committee Reports

- 311 1. Public Works – no report
- 312 2. Personnel – no report
- 313 3. Parks – Meeting next week, bathroom is done
- 314 4. Heritage Preservation Commission / Design Review – legacy grant opportunities, vacant storefronts
- 315 5. Natural Resources and Groundwater – well tests were done with 116 kits requested and 70% follow
- 316 through. Many committee terms are ending in the next several months so new members are needed.
- 317

318 **10. COUNCIL, CONSULTANT, AND STAFF REPORTS, ANNOUNCEMENTS, AND UPDATES**

- 319 A. Ward 1 Council Member Palmquist – nothing
- 320 B. Ward 2 Council Member Richter – Would like more discussion on issuing variances. In the past they were
- 321 issued due to circumstances created by property not due to landowner. Attorney Knaak responded that with
- 322 the state rule change, it is not as clear and is hard to define. Variances used to be the exception, not the rule,
- 323 but that is no longer the case in many places.
- 324 Mayor Bend suggested holding a work session to discuss the topic further.
- 325 C. Ward 3 Council Member Ross - nothing
- 326 D. Ward 4 Council Member Nelson – gone
- 327 E. Mayor Bend – Attended 3 days of emergency operation center training.
- 328 F. City Attorney Knaak – nothing
- 329 G. City Administrator Moore - nothing
- 330

331 **11. ADJOURN –**

332 **Motion/Second: Palmquist/Richter To adjourn. Motion passed 5-0.**

333 Meeting adjourned at 9:58 pm

**PROCEEDINGS OF THE AFTON CITY COUNCIL
CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA**

**DRAFT City Council Work Session Minutes
September 14, 2017
Afton City Hall
3033 St. Croix Trail
Afton, MN 55001
5:00 P.M.**

1. **THE MEETING WAS CALLED TO ORDER** at 5:00 P.M. by Mayor Bend.
2. **ROLL CALL:** Council Members Nelson, Ross, Richter and Palmquist and Mayor Bend.
Quorum Present.

ALSO PRESENT: City Administrator Ron Moorese, City Attorney Fritz Knaak.

3. **APPROVAL OF AGENDA-**
Motion/Second: Bend/Ross. To approve the agenda. Motion carried 5-0-0.

4. **CITY COUNCIL BUSINESS**

A. 2018 Preliminary Budget and Tax levy

Moorese outlined the 2018 preliminary budget and tax levy.

The Council discussed upcoming street and bridge replacement needs and costs, and providing a levy increase to continue to address the Street improvement needs and to begin to fund the bridge replacement needs. The Council also discussed the need to begin to set aside funding for future repairs and replacements related to the new sanitary sewer and storm sewer infrastructure, as well as potential additional costs related to enabling connections to the sanitary sewer system for the properties on Pennington Avenue.

Moorese indicated staff is working toward the implementation of a utility billing system to begin to collect a sewer user fee from all properties connected to the new sewer system.

Mayor Bend suggested an overall tax levy increase of 4.5% to begin to fund the capital expenditures listed above.

Palmquist and Richter suggested a smaller levy increase.

Palmquist suggested that a portion of the levy increase be designated to offset any shortfall in funding the operational costs of the new sanitary sewer treatment system, to enable the sewer user fee to be set at or near the projected \$50 per month amount.

Moorese indicated the preliminary budget and levy need to be set at the September 19 Council meeting.

B. **DNR Flood Hazard Mitigation Grant Funding**

City Engineer Todd Hubmer presented updated financial information regarding the Downtown Village Improvement Project. The DNR has made available to the City an additional \$350,000

52 with the understanding that this additional funding would be sufficient to complete the project,
53 with the exception of unforeseen costs. Todd Hubmer indicated that, based on the updated
54 financial information, it appears the additional funding from the DNR would be sufficient to
55 complete the project.

56
57 The Council discussed the option of accepting the \$350,000 to enable the project to be
58 substantially completed in 2017 vs. delaying construction and trying to obtain additional funding
59 for the DNR grant program through the legislature. The Council agreed to accept the \$350,000 of
60 additional funding from the DNR.

61
62 **C. Downtown Village Improvement Project**

63 The Council discussed the request by Kathy Bolton Iverson of XX St. Croix Trail for a sidewalk
64 along St. Croix Trail in front of her property. Washington County has indicated it is willing to
65 add the sidewalk with a total cost of \$16,000, if the City pays 50% of the cost and if the City
66 takes responsibility for any damage to the trees along the sidewalk on the private property to the
67 south.

68
69 Mayor Bend suggested the City should obtain an agreement from the property owner to the south
70 regarding holding the city harmless for any future tree damage.

71
72 The Council agreed that this item should be brought to the next Council meeting for formal
73 action.

74
75 **Motion/Second: Bend/Nelson. To move into a closed session regarding negotiations with Afton**
76 **St. Croix Company regarding the extension of a temporary easement. Motion carried 5-0-0.**

77
78 **Motion/Second: Bend/Ross. To come out of closed session at 8:27 p.m. Motion carried 5-0-0.**

79
80 **5. ADJOURN –**

81
82 **Motion/Second: Richter/Palmquist. To adjourn the meeting at 8:28 p.m. Motion carried 5-**
83 **0-0.**

PROCEEDINGS OF THE AFTON CITY COUNCIL
CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

DRAFT Special City Council Meeting Minutes
September 8, 2017
1:00 P.M.

1. **THE MEETING WAS CALLED TO ORDER** at 1:00 P.M. by Mayor Bend.
2. **ROLL CALL:** Council Members Nelson, Ross, Richter and Mayor Bend. Members Absent: Palmquist.
Quorum Present.

ALSO PRESENT: City Administrator Ron Moorse and Public Works Supervisor Ken Johnson

3. **APPROVAL OF AGENDA**
Motion/Second: Bend/Nelson. To approve the agenda as presented. Motion carried 4-0-0.

4. **CITY COUNCIL BUSINESS**

A. Repairs Needed for the 201 System

Ken Johnson, Public Works supervisor, explained there is an obstruction somewhere in the River Road 201 system. It is not possible to jet/clean the lines until the manholes can be cleaned of debris to enable a contractor to access clean-out openings in the forcemain lines. This requires vactoring to clean out manholes, then opening the force main clean-outs and jetting the force main lines to clean out the force main and remove any obstructions. It also involves televising the forcemain lines to identify any problems – breaks, cracks, holes.

Two price quotes have been obtained for this work, one from McDonough's in the amount of \$16,711.50 and one from Top Notch Sewer in the amount of \$10,237.

The Council agreed that the existing system needs to be brought up to standards.

Motion/Second: Bend/Nelson. To approve the price quote from Top Notch Sewer for cleaning and televising the sewer lines on River Road, in the amount of \$10,237. Motion carried 4-0-0.

B. Deputies Facility

Moore indicated that, in order to grade the Deputies Facility site to prepare it for the installation of the footings and foundation, the septic tank that is located in the area of the facility needs to be removed. However, the septic tank, which serves the City Hall cannot be removed without a temporary solution to serve the City Hall, because the new sanitary sewer system is not ready to serve the City Hall. A temporary solution is to install a small septic tank behind the City Hall building until the building can be connected to the new sewer system. This tank could be pumped periodically until the connection to the sewer system. The cost would be \$2,200.

Motion/Second: Bend/Ross. To approve the removal of the existing septic tank serving City Hall and install a temporary septic tank in a new location that does not conflict with the Deputies Facility, at a cost of \$2,200. Motion carried 4-0-0.

5. **ADJOURN –**

Motion/Second: Nelson/Bend. To adjourn the meeting at 1:48 p.m. Motion carried 4-0-0.

Respectfully submitted by:

Ronald J. Moorse, City Administrator

DRAFT City Council Work Session Minutes
August 17, 2017
5:00 P.M.

1
2
3
4
5
6
7
8
9 1. THE MEETING WAS CALLED TO ORDER at 5:05 P.M. by Mayor Bend.

10
11 2. ROLL CALL: Council Members Nelson, Ross, Richter, Palmquist, and Mayor Bend. Quorum Present.

12 ALSO PRESENT: City Administrator Ron Moose, City Accountant Tom Niedzwiecki.

13
14
15 3. APPROVAL OF AGENDA

16 Motion/Second: Bend/Ross. To approve the agenda as presented. Motion carried 5-0-0.

17
18 4. CITY COUNCIL BUSINESS

19 A. 2018 Preliminary Budget-

20 Moose outlined the 2018 preliminary budget and tax levy. The proposed General Fund budget
21 reflects a decrease of \$7,286 or 0.6% from the 2017 budget, due to a significant reduction in
22 pothole repair expenditures due to the improvements to the 17 miles of streets that were in the
23 poorest condition through the 2017 Pavement Management Project.

24
25
26 The Council reviewed and discussed the preliminary budget, agreed to add \$5,000 to the police
27 services budget for additional patrol related to speed and noise enforcement, and to add \$11,000 to
28 the line-item for brush removal along roadways.

29
30 The Council requested additional information regarding the projected annual operating revenues and
31 expenditures of the wastewater treatment system and the costs related to the replacement of the City's
32 bridges, particularly the two bridges on Valley Creek Trail that are in poor condition. In addition, the
33 current need to address the necessary maintenance and possible improvements to the sewer lines of the 201
34 System on River Road identified the need to plan for longer term wastewater collection and treatment
35 system maintenance and capital improvement costs.

36
37
38 5. ADJOURN –

39 Motion/Second: Nelson/Bend. To adjourn the meeting at 6:50 p.m. Motion carried 5-0-0.

P.	Road Debt Service Fund – YTD Detail by Account	P1
Q.	City Infra-Structure Improvement Fund – LTD Summary + YTD 2017 Detail	Q1 to Q8

Full Year Estimate:

On Schedule E you can find a Full Year 2017 Estimate with comparison to the Annual Budget. This month's estimate is a favorable variance of \$144,400, basically no change from the prior two months so that is good news.

2nd Half 2017 Property Tax Collections:

\$909,493 2nd Half 2017 Property Tax Levy received. See Schedule E1 for allocation. This puts total collections at 97.9% for the year which is very good (In 2016 we were at 98.8% and in 2015 at 97.6%).

Downtown Projects Cash Flow:

This month we tapped the 120 Street Improvement Fund instead of the Special Reserve Fund for \$1,136,000 to help cover the Downtown Project Expenses. This is in addition to \$450,000 borrowed from the 2017B Road Bond and \$425,000 from the 2014A Refunding Road Bond Debt Service Reserve. Altogether, a total of \$2,011,000 was needed.

Meeting Date Dec. 19, 2017

Council Action Memo

To: Mayor Bend and Members of the City Council
 From: Ron Moorse, City Administrator
 Date: December 13, 2017
 Re: 2018 Budget and Tax Levy Hearing - **Resolutions 2017-54 and 2017-55**

Proposed 2018 Budget and Tax Levy

The proposed 2018 budget reflects an effort to cost-effectively maintain current service levels and provide for the funding of future capital improvement needs. The proposed budget reflects a 0.09% increase in the General Fund Budget and a 4.5% tax levy increase, which result in a small reduction in the City's tax rate. An overview of the proposed 2018 budget, as well as the detailed budget, are attached.

Tax Levy

The proposed 2018 budget results in a total tax levy, including the General Fund levy and the debt service and transfer levies, of \$2,133,786. This is a \$91,886, or 4.5% increase over the total 2017 levy. The main items causing this increase are a \$33,000 increase in the levy for street improvements and a \$49,671 initial levy to begin funding for other capital improvement needs including bridge replacements. The proposed 2018 General Fund levy is \$1,007,067, which is a \$3,625, or 0.4% increase from the 2017 General Fund levy. The minor increase is due to the substantial reduction in street maintenance costs due to recent improvements to 16.9 miles of the City's streets that were in the poorest condition.

Impact on Property Owners

The proposed budget and tax levy would result in the City's share of property taxes on a home valued at \$500,000 being \$1,694.50, an increase of \$79.53 or 4.92% over 2017. For a commercial property valued at \$500,000, the city's share of property taxes would be \$3,114.65, an increase of \$126.94 or 4.25%.

General Fund Budget

The General Fund Budget includes expenditures and revenues related to the general day-to-day operation of the City. The proposed 2018 General Fund expenditures are \$1,243,890. This is an increase of \$10,714 or 0.09% from the 2017 budget. The proposed General Fund budget reflects a significant reduction in pothole repair expenditures due to the improvements to the 16.9 miles of streets that were in the poorest condition through the 2017 Pavement Management Project. The budget also addresses service needs and maintains current service levels of police and fire services.

Budget and Tax Hearing

The Budget and Tax Hearing is an opportunity for the public to provide comments and ask questions regarding the budget and tax levy.

Resolutions

Attached are a resolution approving the final 2018 budget and a resolution adopting the final tax levies for 2018. These resolutions reflect the preliminary budget and tax levy approved in September as well as the budget and tax levy amounts in the attached proposed budget overview.

Council Action Requested:

Motion regarding the adoption of resolution 2017-54 adopting the 2018 proposed budget

Motion regarding the adoption of resolution 2017-55 adopting the 2018 tax levies

RESOLUTION 2017-54

CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

A RESOLUTION APPROVING THE FINAL 2018 BUDGET

BE IT RESOLVED by the City Council of the City of Afton, County of Washington, Minnesota, to approve the 2018 Budget as presented in Attachment A.

Total Budget **\$2,314,945**

The City Administrator/Clerk is hereby instructed to transmit a certified copy of this Resolution to the County Auditor of Washington County, Minnesota.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF AFTON THIS 19th DAY OF DECEMBER, 2017.

RESOLUTION 2017-55

CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

A RESOLUTION ADOPTING FINAL TAX LEVIES FOR 2018

BE IT RESOLVED by the City Council of the City of Afton, County of Washington, Minnesota, that the following sum of money be levied in the current year for collection in 2018, upon taxable property in the City of Afton, for the following purposes:

Final General Certified Levy	\$1,334,002
Final Debt Service Fund Certified Levy: Fire Station Expansion/Remodel	\$49,784
Final Debt Serv Fund Certified Levy – Road Improvement 2014A	\$260,000
Final Debt Serv Fund Certified Levy – Road Improvement 2017B	\$390,000
Final Debt Service Fund Certified Levy – Downtown Improvement Projects (Temp Bonds \$30,000+ PFA Loans \$70,000)	\$100,000
Total Final Certified Levy	\$2,133,786

The City Administrator/Clerk is hereby instructed to transmit a certified copy of this Resolution to the County Auditor of Washington County, Minnesota.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF AFTON THIS 19th DAY OF DECEMBER, 2017.

City of Afton 2018 Proposed Budget Overview

The following is an overview of the City of Afton proposed 2018 budget. The proposed 2018 budget reflects the effort to cost-effectively maintain current service levels, while providing for the funding of future capital improvement needs.

Tax Levy, Tax Rate and Impact on Property Owners

Tax Levy

The proposed 2018 budget results in a total tax levy, including the General Fund levy and the debt service and transfer levies, of \$2,133,786. This is a \$91,886, or 4.5% increase over the total 2017 levy. The main items causing this increase are a \$33,000 increase in the levy for street improvements and a \$49,671 initial levy to begin funding for other capital improvement needs including bridge replacements. The proposed 2018 General Fund levy is \$1,007,067, which is a \$3,625, or 0.4% increase from the 2017 General Fund levy. The minor increase is due to the substantial reduction in street maintenance costs due to recent improvements to 16.9 miles of the City's streets that were in the poorest condition.

Tax Rate

Based on the proposed total levy, the City's tax rate would be reduced from 32.299% in 2017 to 32.275% in 2018.

Impact on Property Owners

The proposed budget and tax levy would result in the City's share of property taxes on a home valued at \$500,000 being \$1,694.50, an increase of \$79.53 or 4.92% over 2017. For a commercial property valued at \$500,000, the city's share of property taxes would be \$3,114.65, an increase of \$126.94 or 4.25%.

General Fund Budget

The General Fund Budget includes expenditures and revenues related to the general day-to-day operation of the City.

General Fund Expenditure Highlights

The proposed 2018 General Fund expenditures are \$1,243,890. This is an increase of \$10,714 or 0.09% from the 2017 budget. The proposed General Fund budget reflects a significant reduction in pothole repair expenditures due to the improvements to the 16.9 miles of streets that were in the poorest condition through the 2017 Pavement Management Project. The budget also addresses service needs and maintains current service levels of police and fire services.

An outline of the key items affecting the General Fund expenditures is as follows:

- Fire and Ambulance service operating expenditures are up \$5,870, or 2.4%
- Police Service expenditures are up \$5,000 or 2.9% based on the estimated cost increase from the Washington County Sheriff's Department
- A line-item for additional police patrols related to noise and speed enforcement has been added in the amount of \$5,000.
- Costs related to pothole patching are reduced by \$36,000 or 78.3%.
- The budget item that includes brush trimming along roadways has been increased by \$11,000 due to a substantial increase in the amount of brush trimming required.
- Costs related to street lights are up by \$7,000 or 140% to reflect additional electricity costs for the new street lights in the downtown area.
- Wages and benefits are up \$12,044, or 4.6%, mainly due to market adjustments for the City Clerk and Office Assistant positions.

General Fund Revenue Highlights

- All revenues are generally flat. While actual Building Permit revenue is higher than the amount budgeted, the City has been budgeting these revenues conservatively.

Tax levies and Transfers

- The remaining \$50,000 levy that was used to fund the high speed internet project in 2017 has been redirected to the Street Improvement Capital Fund. Along with a street improvement levy increase of \$33,000, the internet

levy is now a funding source to increase the annual level of funding related to street improvements from \$375,000 to \$460,000. Of the \$460,000, \$390,000 is being budgeted in the 2017B Road Bond Debt Service account to pay the debt service on the \$3.5 million of bonds used to fund the 16.9 miles of street improvements completed in 2017. This leaves the remaining annual \$70,000 levy available for additional street improvements.

Street and Bridge Improvements Planning

Streets

While the original funding plan with the \$3.5 million bond issue anticipated completing 3.5 miles of reclamation and 6.5 miles of mill and overlays, the 2017 Pavement Management Project completed 16.9 miles of improvements, including all streets that required reclamation. This leaves only 7.5 miles of streets to be improved, all of which appear to need the lower cost mill and overlay vs. the higher cost reclamation.

The levy impact using the scenario of completing the remaining 7.5 miles of street improvements over the next six years is that, rather than increasing the street improvement levy by \$150,000 in 2018, as was anticipated in the original funding plan, the levy is proposed to be increased by \$33,000 in 2018.

Bridge Replacement Funding

The City has five bridges that are periodically inspected regarding the need for repair or replacement. Staff is working with the City Engineer to obtain information regarding the timing and costs of future bridge replacement needs. The City does not currently have a funding plan for bridge replacement. The proposed 2018 budget includes the initiation of a levy of \$49,671 for capital improvement needs including bridge replacement.

Downtown Village Improvement Project

The Downtown Village Improvement Project has been under construction since April of 2017. The Project is expected to be substantially complete in the fall of 2017. The proposed budget and tax levy reflect funding for the planned level of property tax support for the project.

New Downtown Village Area Wastewater Collection and Treatment System

New System in Operation

The new wastewater collection and treatment system serving the downtown village area is now in operation and available for connections.

Sewer Fees for Downtown Village Area

Beginning in late 2017, the City will begin to charge a sewer fee to those who have connected to the new wastewater collection and treatment system serving the downtown village area. This fee is needed to fund the operating costs of the wastewater collection and treatment system. The Council has approved a sewer fee of \$50 per month per sewer unit. Single-family residential properties all have one sewer unit. Commercial properties may have more sewer units, based on statutory criteria related to volume.

A. November 6, 2017 Meeting Minutes – Motion/Second: Wroblewski / Nelson To approve minutes of the November 6, 2017 Planning Commission meeting. Passed 6-0-1. (Patten abstain due to absence)
 6. **REPORTS AND PRESENTATIONS** – none
 7. **PUBLIC HEARINGS** –
A. Application by USS Rambo Solar LLC for a text amendment to the Zoning Code to allow “solar farms” as a conditional use or interim use in the Agricultural District. This application is related to a proposal for a 7.3 acre, 1.0 megawatt ground-mounted solar array at 12560 15th Street S.

Chair Ronningen open the Public Hearing at 7:02pm.

Administrator Moore provided a summary of the project: USS Rambo Solar LLC has made an application for a text amendment to the Zoning Code to allow “solar farm” as a conditional use or interim use in the Agricultural District. This application is related to a proposal for a 7.3 acre, 1.0 megawatt ground-mounted solar array at 12560 15th Street S. USS Rambo Solar LLC has entered into a lease with the property owner, Lyle Rambo, for the use of the property for a solar farm.
Solar Farm
The current definition of a solar farm in the City’s solar energy ordinance is as follows:

Solar Farm - A commercial facility that converts sunlight into electricity, whether by photovoltaics (PV), concentrating solar thermal devices (CST), or other conversion technology, for the primary purpose of wholesale sales of generated electricity. A solar farm is the principal land use for the parcel on which it is located.

The ordinance prohibits solar farms from the Agricultural and Rural Residential zoning districts due to concerns regarding the impact of large areas of solar arrays on the rural character of the City. Solar farms are allowed in the Industrial Districts.
Proposed Text Amendment
The following is an outline of the main elements of the proposed text amendment.
 - Add “solar farms” as a Conditional use or Interim use in the Agricultural zoning district
 - Provide for the same 50 foot side and rear setbacks as are currently required in the Agricultural zone, and require a 250 foot front yard setback vs. the 105 or 150 foot setbacks generally required in the Agricultural zone.
 - Require a landscape screening plan for full-perimeter screening
 - Limit the size of solar farms to a maximum of 10 acres
 - Require a 1 mile buffer from other proposed or permitted solar farms

David Watts US Solar Representative; described the benefits of planning native pollinator plants at the site. US Solar has support from the farm bureau and pollinator partnership groups. The solar gardens protect rural character. Residential subscriptions are offered at a savings of 20%.

Kiara Bolton, 130 Charles Ave St Paul; Bee keeper. Kiara has placed hives at pollinator friendly solar sites and has seen increase in healthy habitat and hives.

Jeff West 19789 Farnam Lake Rd Forest Lake; Prairie Restorations. Jeff stated that Prairie Restorations is actively managing projects at solar sites. The habitat created around the solar gardens works.

Annie Perkins, Afton, Member of NRG. Annie stated that the proposal is in alignment with the City's vision for renewable energy.

Perry Eggers 50th St South Afton; Beekeeper. Perry stated his support for the project.

Charles Bolton, 130 Charles Ave St. Paul; Bolton Bees. Charles stated that most apiaries in the area are located in Washington Co. It is always a struggle to find good habitat. Hives at solar arrays have been healthy and high producing. Neighboring farmers benefit from pollination.

Wes Miller, Afton. Wes questioned changing the ordinance; will that open the door for more? Don't need to have solar panels to have bee habitat.

Franz Hall 5730 Trading Post Trail. Franz questioned if solar farms are less beneficial if they are located in the industrial zone.

US Solar Representative, Minneapolis. Explained that the site has to be near a 3 phase distribution line and wires to make site suitable. Same for industrial site.

Franz Hall 5730 Trading Post Tail, Stated he would like to see this along I-94. In the comprehensive plan they are limited to industrial areas.

Bernardo Medellin 6 Coulee Ridge Rd. Agreed that solar farms should be in the industrial zone.

Wendi Bertelsen y 12631 15th St S. Wendi lives across the road Lyle and stated that she moved to Afton for the rural character. This project would ruin that.

David Watts US Solar. David stated that a 1 mile buffer is requested for any other solar project so there won't be another in close proximity. This provides an opportunity to create pollinator habitat at no cost. The view of the site is protected by full screening and set back 300' from the road

Motion/Second Nelson/Patten To close public hearing. Passed 7-0-0.

Public hearing closed at 7:34 pm.

Nelson pointed out that the Ordinance restricts solar gardens to the Industrial Zone, not the Comprehensive Plan.

Doherty asked if this was the same company who installed a system north off Hwy 15.

Watts replied no, that was a different company and is a 3-4 megawatt site. US Solar uses a single axis panel that tilts and is 10' high, not 15.

107 Wroblewski asked if this property is unique or how many other sites are there that have the location to the
108 3 phase distribution wires, proximity to substation and capacity
109 Watts replied that there are a small set of parcels that meet all criteria.
110 Chair Ronningen asked why this can't be located in the industrial zone; since the Ordinance specifies solar
111 gardens are to be located there.
112 Watts replied that it is cost prohibitive to acquire that land. Projects are currently capped at 1 megawatt
113 sites since 2015.
114 Doherty noted that the ordinance requires this in the industrial zone. Since laws have changed, this is not a
115 workable model due to land costs?
116 Watts replied yes.
117 Wroblewski asked if there is a difference between a solar garden and solar farm? (no)

118
119 **Motion/Second Patten/Langan To recommend the City Council does not change the ordinance in**
120 **regards to solar farms based on the following:**

- 121 - Well written ordinance with extensive public input
- 122 - There is sufficient and well-equipped land in the industrial zone for this
- 123 - No demonstrated need that indicates the current ordinance is deficient
- 124 - Revisit pollinator language in current ordinance

125 Discussion
126 Doherty stated that if the laws have changed, perhaps we should revisit the ordinance with current
127 information
128 Kopitzke agreed that the facts have changed and size allowed is a factor
129 Langan asked for clarification on the 1 megawatt limit.
130 Watts explained that it is a rule and limitation from Excel and the Public Utilities. Not state law. Any project
131 bigger than 1 megawatt began application prior to 2015.
132 Chair Ronningen stated she had a hard time with the proposed language re: principal and accessory use,
133 and that the definitions are mutually exclusive.
134 Kopitzke stated he would like the city council to give direction on re-writing language.
135 Patten noted that this is contrary to everything we spent months discussing when writing the ordinance.
136 Kopitzke – recall it being close
137 Doherty noted there was extensive neighbor participation last time. This time only 1 person in the area has
138 come – has the mood changed on the topic?
139 Langan replied that the neighbors in the area thought it was a dead issue.

140
141 **Motion vote, Passed 6-1-0. (Kopitzke, nay)**

142
143
144 **8. NEW BUSINESS –**

145 A. 2018 Planning Commission Meeting Schedule
146 **Motion / Second Ronningen/Wroblewski To approve the 2018 meeting schedule for the first Monday**
147 **of the month with January moved to January 8, July moved to July 9 and September moved to**
148 **September 10 to avoid holidays. Passed 7-0-0.**

149
150 **9. OLD BUSINESS –**

151 A. Afton Creek Preserve PLCD Subdivision Concept Alternatives at 14220 60th Street and parcels with PID
152 Numbers 33.028.20.33.0005, 33.028.20.33.0004, 33.028.20.32.0001, 32.028.20.41.0002,
153 32.028.20.42.0004, and 32.028.20.43.0001.
154 The City Council, at its October 17, 2017 meeting, referred the Afton Creek Preserve Preservation and Land
155 Conservation Development (PLCD) back to the Planning Commission for reconsideration. Since then, the
156 applicant has developed two concept alternatives to address feedback from the Planning Commission, the
157 neighboring property owners and the City Council, and to minimize the number of required variances. The
158 applicant would like to obtain general feedback from the Planning Commission and the City Council

159 regarding the two concept alternatives to guide the detailed preparation of one alternative to bring forward
160 in a continuation of the preliminary plat review process.
161 One concept alternative is a revised cul de sac with one termination point and 16 lots. The other concept
162 alternative is a loop road with access to Odell Avenue.
163 The applicant is requesting general feedback from the Planning Commission regarding the concept
164 alternatives to guide the detailed preparation of one alternative to bring forward in a continuation of the
165 preliminary plat review process.
166

167 Discussion

168 Chair Ronningen asked what the status is regarding the application and how these concepts relate.
169 Administrator Moorse replied that this is an interim step to get feedback on concepts to provide direction to
170 the applicant. The next step would be bringing an application for public hearing to Planning Commission
171 then City Council.

172 Chair Ronningen stated that this meeting is not officially a public hearing; there will be discussion by the
173 commission then she will allow some public comment. Since this is a PLCD there is no guarantee that there
174 will be a maximum number of lots due to terrain, etc.

175 Kopitzke stated that he likes the connecting road, but that 5 acre parcel cannot be part of the PLCD.

176 Ronningen stated it would require a taking of the lot for a road and trail.

177 Wroblewski noted that it causes two areas of traffic concerns.

178 Patten stated he is against lot 18 and that lot 1 is too close to the stream.

179 Wroblewski dislikes lot 18's shape.

180 Doherty stated she sees progress; Option 1 requires fewer variances. Lots 1,2, & 18 should be part of open
181 space.

182 Patten noted that option 1 requires a fundamental shift in use of land with a road through a residential lot

183 Kopitzke stated that it is a change in use, but just a road in a neighborhood.

184 Patten would like to encourage smart development and feels like we should be able to do a PLCD with only
185 a Conditional Use permit and no other variances.

186 Chair Ronningen agreed that's how the language was written. The County has record of this being in Ag
187 Preserve, has it come out?

188 Administrator Moorse will double check.

189 Kopitzke stated he just received this pile of legal opinions and would like time to review

190 Doherty stated that the task today is to indicate which plan is more favorable. Both are problematic since
191 they both need variances; however 1a is better.

192 Patten stated the plans are not where they need to be - they need to be variance free.

193 Doherty agreed that if a variance is still needed; she would like to know why there isn't another option.

194 Joe Bush, Developer stated that the west entrance was discussed originally. However the natural resources
195 are primarily on the west side for the PLCD, and the houses would be placed by the other existing houses
196 on the east side.

197 Doherty asked if the MN Land Trust would accept the project if the access was on the west side

198 Bush replied that the MN Land Trust will look at any application; however they already went through the
199 process.

200 Ronningen stated that there is no requirement that the MN Land Trust hold the easement. The City or
201 homeowners could hold the easement. There are other groups that will work within our ordinances. City
202 ordinances come first for Afton.

203
204 Chair Ronningen opened public comment

205
206 Kathy Graham, 5912 Trading Post Trail. Developer hasn't addressed concerns over the number of lots. The
207 best use of the land is decreased density. The setback of the road encroaches on her property. Development
208 should have to follow codes. The shoreland overlay district prohibits a PLCD.
209

210 David Husebye, 5830 Osgood. Discussed ASHTO guidelines regarding stopping distance and the traffic
211 study.
212
213 Paul Wolner, 13446 50th St S. Noted that no traffic study was done on Odell and that more traffic will go
214 there.
215
216 Dan Brannan, 13997 50th St. Stated that the stopping distances and sight distances mentioned are minimum.
217 The intersection at Trading Post and Co Hwy 18 has had accidents; neither of these proposed intersections
218 comes close to meeting the standards there. Access should be located off 60th. Rare species map showing
219 woods on eastern edge of property – houses shouldn't be there, that area should be preserved.
220
221 Christian Dawson, 5888 Trading Post Trail. Had to hire legal advice hired to protect his land. Stated that he
222 has provided feedback over past year and still is looking at the same issues.
223
224 Mary McConnell, 5680 Odell. The property has challenges for this size of development. Access off 60th
225 Street would be safer. The City must look at all issues. Alternatives can provide a conservation easement
226 and allow development. This will set a precedent for further development.
227
228 James Rickard, 5650 Odell. Asked about the timeline. Would like the commission to reject the original
229 proposal and consider the alternatives separately.
230
231 Chair Ronningen closed public comment
232
233 Chair Ronningen asked about the current timeline for review
234 Administrator Moorse replied that the review deadline has been extended to Feb 11.
235 Kopitzke asked what the Council is asking for.
236 Doherty asked about the process since they'd had an application with 3 items which they recommended not
237 to approve. Council then said the planning commission didn't have all the information and passed it back:
238 Should we close the original application?
239 Chair Ronningen stated that the application was rejected for many reasons, none have changed.
240 City Council member Richter stated that the Council would like detailed feedback and opinion on these
241 options.
242 Chair Ronningen noted that there are two more drawings now. Is this a new application and where does it
243 fall? Commission recommended rejection to the original. There information regarding the property deed.
244 Perry Eggers, 13379 50th St. Stated he is representing the Ag zone. The property deed from Ester Shuster to
245 Robert Shuster stated that the land should be kept in agricultural use, it is spelled out.
246 Chair Ronningen asked if this is a covenant on the deed and is it binding?
247 Administrator Moorse stated that the developer's proposals were in attempt to address concerns that were
248 raised. He wanted to get feedback. The next step is to get feedback from the Council then the whole
249 application will come back to the planning commission with the full proposal.
250 Doherty stated that the he should consider having the entrance on the west side of property.
251 Wroblewski noted she'd mentioned that many meetings ago. Have to get PLCD right as it's very important.
252 Doherty & Patten both asked for a plan with no variances needed
253 Nelson commented that the shoreland management zone regulations have been addressed (300' in this area)
254 Chair Ronningen stated that her concern is not the money, but to protect citizens and environment of Afton.
255 Wroblewski noted that she supports conservation easements, but this needs to be within existing ordinances.
256 Chair Ronningen noted that there are many people out there that want larger lots. These are not acceptable.
257 Reduce the number of lots, provide a road that is safe.
258 Nelson dislikes the grading of slopes on lot 1.
259 Kopitzke would like a no variance solution. The owner can work within ordinances.
260 Bush stated that the landowner is part of the community and is trying to preserve.
261

262 **B.** Comprehensive Plan Update process
263 Progress was made at the workshop. Planning to have draft for January public hearing.

264
265 **C. Update on City Council Actions**

PREAMBLE

We, the residents of the City of Afton, Minnesota, in order to:
preserve our rural sanctuary amidst suburban sprawl;
preserve our agricultural heritage and land use;
preserve the character of our Old Village;
protect our groundwater and surface water from contamination;
protect our rolling hills from erosion;
provide for open spaces to be enjoyed by future generations; and
ensure a sound tax base and a sense of community
Do ordain and establish this 2018 Comprehensive Plan.

Philosophy

From the time this community was named with a river in mind and now a City on the Scenic St. Croix River, water has been *the* foremost concern of its residents. That concern has never been greater than today.

Some see urban development as excellent proof of a growing economy; we see urban development as a threat to the water we drink, the crops we grow, and the vistas we gaze upon. This preservation attitude is consistent with the long-term desires of our residents and promotes a healthy respect for the environment. As such, our ordinances do not forbid change; they require that change not harm the environment. As stewards of this land and all that is in it or on it, we can do no less. This City is different from other communities in the Metropolitan Area *and wants to stay that way.*

This City borders on another city that has a diametrically opposed philosophy about land use and urban expansion. This is one of the most significant challenges this City has ever faced. The adage in the real estate industry is that the three most important points in real estate are “location, location, and location.” The three most important points in the City of Afton are “groundwater, surface water, and groundwater recharge.” We drink this water, we fish these streams, we protect the environment for the flora and fauna with which we share the land.

In many respects, we regard agricultural and open space as the “highest and best use” of the land. We regard our position as a community trust to preserve, protect, and defend our lands and lifestyle from irreversible change. That is our right and the actions of other jurisdictions, including the Legislature and the Metropolitan Council, *should respect that vision of Afton to remain rural by choice.*

Introduction

*Flow gently, sweet Afton, among thy green braes,
Flow gently, I'll sing thee a song in thy praise;
My Mary's asleep by thy murmuring stream,
Flow gently, sweet Afton, disturb not her dream.*

When Robert Burns penned these words, he was describing his own idyllic rural sanctuary in southern Scotland. Half a century later, settlers of the St. Croix Valley would recognize the same spirit in the locale of the township and city they would name Afton.

Afton strives to remain true to the vision of a rural environment, a place neither purely agricultural, nor purely residential, but a blend of both. Located only fifteen miles from downtown St. Paul and bordering rapidly growing suburbs, Afton's unique status as a rural sanctuary is worth preserving.

This plan is divided into Sections as recommended by the Metropolitan Council: Inventory, Goals and Policies, and Implementation. The message of this plan and the story of Afton should be abundantly clear. This city is unique among communities in the Metropolitan Area and wants to stay that way. Afton's leaders are to look to the principles espoused within this plan for governing guidance as they define the ordinances that will preserve this place for current citizens and those to come. For definitions see Appendix A.

Vision Statement

The City of Afton began as a country village. The city's Old Village provides a business center and a rural village atmosphere typically only found far away from the conveniences of a metropolitan area. The Old Village is the cultural heart of the community, providing a town square and access to the river.

Afton is also a city of water. The St. Croix River and the creeks that flow through Afton shape the landscape and are a critical resource for the community. The quality of groundwater and surface water is essential to maintaining Afton's character. Wells and septic systems, rather than city water and sewers, govern every home's relationship to the land.

Afton is also a city of open fields. The farm fields of southwestern Afton represent the city's historical roots in agriculture and continue to be farmed in the face of development pressures on Afton's borders. Methods of preserving Afton's agrarian roots must be found if the city is to remain a rural sanctuary.

Afton is also a city of rolling hills. Water has carved these hills over thousands of years, but it is the impact of development which the city must protect against. Erosion and deforestation in these hills strip Afton of forests and vistas that are also an essential part of life in Afton.

Most importantly, Afton is a city of people. The community within this rural sanctuary gives meaning to the city's character. A sound tax base provides the community with the means to maintain roads, provide police and fire protection, and provide public facilities for the community.

*How lofty, sweet Afton, thy neighbouring hills,
Far mark'd with the courses of clear, winding rills;
There daily I wander, as noon rises high,
My flocks and my Mary's sweet cot in my eye.*

The rural sanctuary in southern Scotland that Robert Burns wrote of has long passed into history. But on the shores of the St. Croix River, the citizens of Afton established this plan to maintain the city's deep-seated historical vision. We are stewards of this land and all that is in it or on it, and our government has been granted a trust to preserve and protect our lands.

Public Involvement

In the past the City of Afton involved the general public in the assembling of plan updates. Since the revisions to this plan in 2018 are more limited, public involvement not been as extensive. City commissions were asked to review sections of the plan that pertained to their areas of expertise and pass that on to the Afton Planning Commission. Public hearings held in early 2018 provided the opportunity for citizens to comment on the revised plan.

Commented [JY(C1)]: Public Involvement section was not included in 2015 revision.

Purpose

Afton's location within a major metropolitan area belies the rural atmosphere that greets commuters at its borders. Residents and visitors to Afton know they have arrived somewhere special. When Afton residents were asked what they like best about living in Afton, the three most prevalent responses all related to Afton's natural, rural character; each of them is crucial to making Afton a unique community:

1. Rural location and low population density;
2. Open space and dispersed pattern of development; and
3. Presence of active farms and agriculture.

Afton residents value rural location, low development density, open space, working farms, abundant wildlife, and historic "Old Village" Afton residents enjoy Afton's proximity to the St. Croix River, Belwin Conservancy, state and regional parks, the convenient location of the City to commercial centers, reasonable taxes, good schools, and our community identity – (Community Survey: General Priorities – Appendix H).

The purpose of the Afton Comprehensive Plan is to perpetuate this character. It is to identify and capture those things that make Afton a unique and special place and protect them for current and future residents.

Citizens of Afton obtain their drinking water from the ground. It is essential, therefore, that thoughtful development planning be followed in order to protect this vital resource. Because groundwater and surface water are connected, it is just as essential to protect our streams and lakes.

The primary purpose of this plan is to:

- ~~Provide for the preservation of our water resources through careful planning;~~
- ~~1.~~ Promote the health, safety, and welfare of the City of Afton and its residents.
 - ~~2.~~ ~~Provide for the preservation of our water resources through careful planning.~~
 - ~~4-2.~~ Preserve agriculture and open space.
 - ~~2-3.~~ Protect groundwater and natural resources.
 - ~~3-4.~~ Maintain the historical character of the Old Village.
 - ~~4-5.~~ Ensure a safe and pleasant environment for residential, commercial, agricultural, industrial and public activities ~~and~~
 - ~~5-6.~~ Ensure a sound tax base, which will provide the resources needed to maintain our quality of life.

Historical Background

The early human inhabitants of the St. Croix Valley were Native Americans. In the early 1800's, Afton was settled by New Englanders who probably felt at home among Afton's tree covered hills and bluffs. The city retains that New England flavor with its natural beauty accented by narrow, winding roads and small, clapboard sided houses. Joseph Haskell, in 1839, planted three acres of corn and potatoes, built a farmhouse, and thus began the first farm in Minnesota. While communities north of Afton were building sawmills, the first flour mill in the state was built in Afton in 1843. A further indication of the importance of agriculture in Afton was the use of a steam-powered threshing machine in 1861.

The village of Afton was platted in 1855. The majority of the city's historical structures are located within the boundaries of the original village. The 1974 Afton Comprehensive Plan established the Village Historic Site District in recognition of the village's historical significance. The following sites are found within the boundaries of the Village Historic Site District: the Afton Theological Academy, the area's first educational academy built in 1867; the Village Hall (housing the Afton Historical Society), built in 1895 as the Congregational Church; the "Little Red House," built in 1859; the Afton House, built in 1867; and the Little Brick Schoolhouse, built in 1857.

The township of Afton, established in 1859 and named after the village, also has important historical structures and sites. Included among these are: the Bolles Mill Site, the first flour mill in Minnesota; the Bolles House, built in 1856 and the oldest frame house in the area; and, Haskell's Farm.

In 1971, the village and township incorporated to form the City of Afton. Afton is a large city geographically, approximately 25 square miles, but is sparsely populated. The eastern portion of the city contains the bluffs and tree covered hillsides that attracted the original settlers, while the western portion has rolling hills, and open farmland.

BACKGROUND INFORMATION

Afton has long been a desirable place to live. While being only minutes from St. Paul, Afton is a unique and special place due to the combination of its rural character, its scenic bluffs, and its location on a major wild and scenic river. The City has always approached land use management as a crucial component of its goal of protecting groundwater, the St. Croix River, and lakes and streams from the negative environmental impacts associated with urban development, which has set it apart.

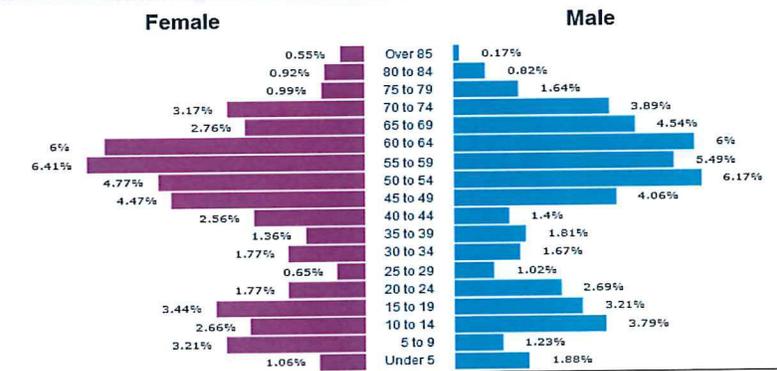

Afton is and will remain a highly sought-after location. As surrounding areas have developed at typical suburban densities, Afton has remained steadfast in its low-density approach to development, in order to protect its environment and maintain its rural character. This contrast in development philosophy is visibly apparent as one enters Afton from the west. As these divergent development trends continue, Afton's rural character will become even more in demand.

Migration & Turnover of Population

The population of Afton, as in all of the U.S., is aging. The median age in 1990 was 35.8, in 2000 ~~it had grown to 42.2, and in 2010 a median age of 48.6. Since~~ Between Since 1990 and 2000, the number of people ages 20 to 34, declined from 432 in 1990 to 288 in 2010, 26 more than in 2000. to 262.

Population by Age & Gender in Afton
American Community Survey 2011 - 2015

Formatted: Font: Bold

The Aging of Afton's population will continue in the coming decades. One of the results will be continuing and housing trends could mean fairly widespread turnover in residential property. in the next decade. As current residents decide to downsize their houses or adopt a lower maintenance lifestyle, many new homeowners will arrive from other cities. New residents will come for the same reasons current residents chose Afton: clean water, rural vistas, open spaces, and the St. Croix River.

It is the responsibility of Afton's residents and leaders to ensure that new property owners come to share the values associated with Afton's character. Preserving the rural character, beauty, and natural resources of Afton will be paramount for the future of the City.

This is an opportunity to be proactive in telling Afton's story in a way that creates and manages the expectations of those who are considering developing or living in Afton, so that those who choose to develop or live in Afton are drawn here by the promise of the unique natural, open, rural character of the City vs. the urban development and services available in countless locations throughout the metro area.

Housing Values

The median housing value in Afton is significantly higher than both the median housing values of homes in Washington County and the State of Minnesota.—This reflects the fact that Afton is a desirable place to live and that the demand for housing in the city is high.

Table 1 - Housing Values, ~~2000~~ Census

	Afton	Washington County	Minnesota
Median value (2009+999-dollars)	397,100 225,600	243,600 156,200	186,200 122,400
Median monthly household costs with a mortgage payment	2,242 1,473	1,730 1,263	1,420 1,044
Median monthly rent	1,500 1,375	1,144 699	848 566

It is not clear what the future will bring in terms of housing values in Afton. Current trends statewide and nationwide suggest that housing values are rising and that demand is high. The desirability of housing in Afton is directly tied to the rural lifestyle and the connection to the natural environment that living in Afton provides.— People value the low-density development pattern and willingly pay to secure that.

....the long-term interests of all property owners in the City of Afton are with maintaining the current development pattern, which is the source of value.

Conclusion

Afton has established a development pattern that residents value and is in high demand throughout the region. The challenge for Afton will be to continue to contain infrastructure costs, maintain a low demand for services, and incorporate new residents and their ideas in a way that focuses on the interests of all Afton residents and will maintain the current development pattern.

Demographic trends will significantly increase pressures to develop Afton. These trends in Afton are important to understand because they have evolved and increased in the years since the last update of the Comprehensive Plan. This Comprehensive Plan acknowledges these pressures and seeks to address them by reinforcing the diversified rural development pattern in the City of Afton through its housing and land use goals, policies, and strategies.

ENVIRONMENTAL RESOURCES PLAN

Intent

Afton's environment is a fragile one. The citizens of Afton have a high regard for their environment and have made major efforts to preserve and protect it. Preservation of Afton's natural features has not been an easy task considering the fragile soils, steep slopes, drainage ways, vegetation, and lakes and streams that make up the city. These delicate features need protection through careful planning.

Afton will only permit low density development which is designed to preserve and protect the soils, wildlife, slopes, drainage ways, vegetation, lakes, streams and river that make up Afton's natural features. Preserving the health and safety of residents requires protecting Afton's environmentally sensitive areas, which preserves the aesthetic qualities of the landscape and protects the purity of the air and water.

The citizens of Afton have a high regard for their environment. Low density development based on the use of private wells and individual and cluster septic systems have provided Afton with unique and sustainable neighborhoods that are not only self-sufficient, but collectively have a relatively low environmental impact. While the city is only fifteen miles east of downtown St. Paul, there is a world of difference between Afton and the surrounding urban and suburban development. Citizens desire to keep the city open and rural, while still enjoying the benefits of being located close to a major metropolitan area.

Afton's natural features exist in gently rolling uplands cut by deep ravines, drainage ways, and streams that flow into the St. Croix River. This topography, while uniquely defining, presents distinct challenges, particularly with ~~storm water~~ stormwater and agricultural runoff. ~~Low density development is interspersed~~ with environmentally sensitive areas including ~~a~~ trout streams, a lake, bluffs, ravines, wetlands, steep slopes, floodplains and a river. low density development is an essential part of the lifestyle in Afton. The commitment to preservation is strong (Appendix H-2007 Community Survey: Groundwater, Farmland and Rural Character).

Afton plans to accommodate future development without compromising the assets that make the city an environmentally friendly area. In addition to those mentioned above, natural resources in need of preservation include view sheds, soils, wildlife habitat, ~~wildlife corridors~~, groundwater resources such as springs and aquifers, geologically significant topographic features, vegetation, and drainage areas.

Soils

In the soil survey issued by Washington County Soil Conservation District in April 1980, the soils in Afton have been reviewed and different soil types categorized as to their suitability to accommodate on-site sewage treatment systems and to support a rural atmosphere, farming, groundwater protection, wildlife habitat, and a biological diversity for its citizens, flora, and fauna (see Appendix I). It is an inventory of the soils found in the city and indicates, among other things, the type of soil, the slope

gradient, the suitability of the soils to support certain uses and the degree and kind of limitation of each soil type for certain uses.

The maps that accompany the soil survey are useful as a planning tool since one is able to determine those areas that present problems for development. While the soil map is reasonably accurate, it is still recognized that unmapped pockets of different soil types can exist within a designated soil boundary line. Therefore, the soil map does not eliminate the need for soil sampling and testing on each building site. The soil map indicates the areas of prime agricultural soils and additional farmland of statewide importance.

The different types of soil in Afton are directly attributed to glacial ~~fill-till~~. (Tester, J.R., Minnesota's natural Heritage, University of Minnesota press, 1995; chapter 1) and weathered limestone. Most of the Afton area includes soils overlaying bedrock having slow percolation rates, steep slopes, periodic flooding and seasonal high water tables, although there are some karst areas with rapid infiltration rates. ~~In addition, there~~ There are also some areas in Afton that have been ~~mined~~ subject to mining. These geologic features have created deep ravines and drainage ways. Soil types associated with these features are generally unsuitable for development due to their instability, high erosion potential and low absorption rates. Development in these areas needs to be monitored to prevent further soil degradation.

While soils are a major factor in determining the importance of land for agricultural purposes, (Appendix I – Map 3), there are many other factors that influence whether a land is most suitable for agricultural uses. In Afton, the prime agricultural lands tend to be those areas most easily developed, having few topographic or environmental constraints. Yet, these areas provide some of the broadest expanses of non-fragmented open space in the city and are thus critical preservation areas.

Topography

Afton's steep slopes (Appendix I–Map 5) are a result of erosion by flowing water. It is vital to the community that these drainage ways be protected and maintained. It is essential that every attempt be made to limit the amount of additional stormwater and agricultural runoff that flows through these drainage ways, ~~many of them in or near the Old Village~~. Afton currently protects all slopes with a grade over 18 percent and slopes with a grade over 12 percent are protected if the soils on such slopes are deemed fragile (Afton City Ordinances, Section 12-132). Continued care must be taken when allowing development in the upland areas of the City.

Vegetation

The vegetative cover is an essential part of Afton's natural environment, and should be protected. (Appendix I–Map 4). In an area where there is such dramatic topography, damage to the vegetative cover can result in such things as increased erosion and, stormwater runoff, and danger of flooding and siltation,; lessening of water quality,; loss of landscape diversity,; decreased land values,; detriments to surrounding wildlife and ecosystem,; and degradation of soil and air quality. The tree cover is predominant where there are steep slopes, areas not being farmed and along watercourses

and drainage ways. The vegetative cover consists mainly of deciduous trees, with several areas of planted conifers.

Riparian Systems

The St. Croix River, a National Wild and Scenic River, is one of the most pristine large river ecosystems in the upper Midwest. In 2009, it was named one of the Ten Most Endangered Rivers in the United States by the organization American Rivers. It is shared and highly valued by two states, Minnesota and Wisconsin. Land use along the river is governed by the Departments of Natural Resources of both states, as well as the U.S. Park Service and local municipalities. In addition to local zoning regulations, all development must conform to the provisions of the Lower St. Croix Bluffland, Shoreland, and Floodplain Management Ordinances.

Parts of the City of Afton are included in three major drainage ways (Appendix I-Map 6): the Valley Branch Watershed District, the Middle St. Croix Water Management Organization and the South Washington Watershed District. Valley Creek, South Fork Valley Creek, Trout Brook and other major ravines and drainage ways are tributaries to the St. Croix River. Much of the surface water that flows from Afton into the St. Croix River goes through or near the Old Village. It is vitally important to the safety of the Old Village, and to the health and vitality of the St. Croix River, that these drainage ways be protected and stabilized and the amount of stormwater runoff through these drainage ways be kept to a minimum.

According to the 1996 National Water Quality Inventory, stormwater runoff is a leading source of water pollution. ~~Storm water~~Stormwater runoff can harm surface waters such as rivers, lakes, and streams which in turn cause or contribute to non-compliance with water quality standards. ~~Storm water~~Stormwater runoff can change natural hydrologic patterns, accelerate stream flows, destroy aquatic habitats, and elevate pollutant concentrations and loadings. Development substantially increases impervious surfaces thereby increasing runoff from city streets, driveways, parking lots, and sidewalks, on which pollutants from human activities settle.

Nutrients (phosphorus and nitrogen) and sediment enter the St. Croix and its tributaries from many different sources: wastewater treatment plants, urban ~~storm water~~stormwater, residential lawns, crop land, pastures, animal feeding operations, construction sites and natural sources. Common pollutants in runoff include pesticides, fertilizers, oils, metals, pathogens, salt, sediment, litter and other debris.

Groundwater

Afton must keep the groundwater in its natural condition, free from any degradation caused by human activities. All homes in Afton are currently served by private wells and septic systems. Afton is currently outside of the metropolitan urban services area (MUSA) and has no intention of utilizing the Metropolitan Council's sewer and water services even if they become available. However, a large subsurface treatment system and gravity sanitary sewer collection system ~~has been~~ will be constructed to serve the existing residential and commercial properties for the Historic Village Sewage Treatment Service Area. It is of the upmost importance in order to maintain our rural residential and agricultural character, that we have ample supplies of clean drinking water throughout the city. In areas that have ~~rapid infiltration or that have~~ been mined, it is essential to monitor groundwater to prevent unfiltered septic effluent from damaging the aquifer.

Aggregate Resources

Afton contains limited mineral deposits, primarily sand and gravel. Minnesota Geological Survey indicates that much of Afton falls within an area designated as "Afton Valley Fill",²² which is described as:

Colluvial material which fills in lower-lying areas within the bedrock uplands in southeastern Washington County. We interpret most of these deposits to be thin and gravel-poor. 1
(Minnesota Geological Survey Information Circular 46.)

The circular also indicates that, "In all likelihood, the majority of these deposits will not continue to be available for mining because of competing land-use pressures."

Of the areas in Afton that could potentially be utilized for aggregate extraction, most are either within existing, residential neighborhoods or encumbered by a permanent conservation easement.² (For instance, lands within the Belwin Conservancy are unavailable for aggregate extraction.) The remaining areas are zoned primarily Industrial, which allows for extraction through a permitting process outlined in Chapter 12, Article X, of the Afton City Code.

Although not significant in size, there are several areas in the city that have been mined that are unsuitable for building unless it is established that they can meet all building requirements. Mining removes the topsoil and sub-soils that filter runoff and sewage system effluent. Systems installed in soils in areas previously mined may result in the effluent moving quickly and untreated through the coarse soils to the water table resulting in pollution of water wells. This is of even greater concern if the area is one of groundwater recharge. Areas of groundwater recharge are critical areas that have soil characteristics that are conducive to rapid percolation of water from the surface into the substrate and ultimately into the local water table and connected hydrologic systems (wetlands, lakes, aquifers, and rivers). Pollution of the groundwater supply would have a devastating financial and environmental effect on the community and its residents.

Energy

As a sparsely populated rural community, the City will encourage feasible methods of energy storage and conservation, and ~~locally produced~~ renewable forms of energy that are environmentally friendly, including wind, photovoltaic ~~and~~ geothermal, ~~and cellulose ethanol~~. The City will reduce community-wide use of non-renewable energy sources attempting to meet state-wide standards of 80% renewable by 2050.

Commented [JY(C2)]: Suggestions from Citizens Climate Lobby

The Metropolitan Land Planning Act (Minnesota Statutes 473.859, Subd. 2) requires that local comprehensive plans include an element for the protection and development of access to direct sunlight for solar energy systems. The City of Afton ~~will protect~~ such access by requiring minimum lot sizes, abundant open space, yard setbacks, and maximum height of buildings for urban residents. Land uses should not preclude the possible use of solar energy systems. The City will review and revise, as necessary, the Zoning and Subdivision Ordinances to ensure the protection of solar access. ~~Section 12-1258 of the Afton City Code requires new subdivisions to~~ New subdivisions are required to “be designed to accommodate extensive use of passive and active solar energy systems.” ~~Section 12-132 230~~ 230 New and modified structures are prohibited from blocking reasonable capture of Solar Resource within the buildable area of other parcels, including vacant lots. ~~prohibits the construction of any structure that will block solar access for an existing principle structure or infringe on the solar access of the buildable area of a vacant lot.~~

Environmental Resources Goals, and Policies

The City of Afton establishes the following environmental resource goals:

1. ~~Preserve a rural landscape and natural ecosystem.~~
2. Maintain the city's overall one housing unit per ten acres, which is Afton's definition of low density-to, to limit development's footprint upon the land.
 - a. Agriculture Preserve zone - 1 housing unit per quarter-quarter section
 - b. Agricultural – 3 units per quarter-quarter section
 - a.c. Rural Residential - 1 housing unit per five acres.
- 2.3. ~~Protect surface water resources from degradation. Reduce nutrient loading to the St Croix River.~~
 - a. ~~Reduce nutrient loading by 20% (Total Maximum Daily Load).~~
- 3.4. Improve and protect water quality in Kelle's Creek, Valley Creek, Lake Edith and the St. Croix River.
- 4.5. Protect supply of surface and groundwater, ~~in area aquifers.~~
 - a. Maintain springs, Lake Edith and Valley Creek at current surface elevation.
 - b. Maintain aquifers at levels supporting existing area wells.
- 5.6. Protect groundwater recharge areas from pollutants:
 - a. Prevent untreated wastewater and unfiltered ~~storm-water~~stormwater runoff from entering the groundwater.
 - a.b. Develop a plan to reduce nutrients
- 6.7. Protect groundwater aquifers from contamination:
 - a. Provide for safe drinking water.
 - b. Prohibit mining and prevent contamination from previously mined areas.
 - c. ~~Continue~~Institute a well monitoring programs.
 - d. Encourage organic farming and gardening practices.
- 7.8. Maintain and enhance fish and wildlife habitats so as to retain or expand the current diversity of species:
 - a. Ensure the long term ecological stability of the riparian system.
 - b. Restore the riparian forests that line the banks of Valley Creek.
 - c. Provide for natural corridors throughout the City.
 - e.d. Explore creating effective wildlife corridors with neighboring communities
- 8.9. Preserve existing forests, woodlands and prairies and control invasive species:
 - a. Plant diverse species of native trees
 - a.b. Control and eradicate noxious species.
 - b.c. Control and eradicate invasive species to facilitate agricultural operations.
 - d. Prohibit clear cutting.
 - e.e. Encourage tree planting for erosion control, carbon sinks, water infiltration, and energy conservation.
- 9.10. Protect and preserve steep slopes and the land atop them from development:
 - a. Preserve viewsheds.
 - b. Prevent erosion.
- 10.11. Protect soils from erosion, contamination and loss.

Commented [JY(C3)]: Suggestions from Citizens Climate Lobby

Commented [JY(C4)]: Suggestion from Citizens Climate Lobby

Commented [JY(C5)]: Citizens Climate Lobby

Commented [JY(C6)]: Were there 4 suggestions here? Check with Bowman

- a. Utilize best management practices in all development-
- b. Provide natural buffers to stabilize soils and contain run-off where possible-
- b.c. Encourage use of native grasses
- ~~11-12.~~ Protect and preserve natural features unique to the City of Afton-
 - a. Promote conservation and scenic easements-
- 13. Reduce the use of fossil fuels for energy production by encouraging alternative options such as solar, wind and geothermal
- b.a.
- ~~12-14.~~ Protect the night sky from light pollution-
- 15. Anticipate changing climate demands on our environment
- ~~13-16.~~ Promote wise land stewardship-

Commented [JY(C7)]: Citizens Climate Lobby

The City of Afton establishes the following environmental resources policies:

1. Maintain the city's overall development density of no more than one dwelling unit per ten acres.
2. Use water quality protection practices such as reducing the use of phosphorus fertilizers and support protection efforts by state, county and federal agencies, as well as the Valley Creek Protection Initiative-
3. Work with various agencies to develop a strategy for reasonable and achievable reduction of nutrient and sediment loading from wastewater treatment plants, Subsurface Sewage Treatment Systems (SSTS), ~~storm water~~stormwater run-off, crop land, pastures, animal-based agricultural operations, construction sites and natural sources-
4. Strive for the highest standard possible for Individual ~~or~~, Communal, or Large Subsurface Sewage Treatment System technology and advanced treatment of wastewater where that technology has been tested, proven reliable and approved by regulatory agencies-
5. Work with the Wisconsin Department of Natural Resources (WDNR), the Minnesota Department of Natural Resources(DNR), and the Minnesota Pollution Control Agency (MPCA) with support from the St. Croix River Water Resources Planning Team; an interagency planning team consisting of federal, state and local members; to develop Total Maximum Daily Load requirements which will enhance the water resources in the St. Croix River Basin-
6. Prohibit clear cutting. ~~m~~
- ~~6-7.~~ Monitor and control land uses which contribute to erosion, pollution, and well contamination by enforcement of ordinances-
- ~~7-8.~~ Work with the various agencies involved with groundwater monitoring in regard to the east well-field area in the City of Woodbury-
- ~~8-9. Develop and p~~ Continue to provide~~provide~~ funding for a volunteer well-monitoring program-
10. Study and consider ordinances to allow for economically sustainable, locally renewable and environmentally friendly means of energy production-
 - a. The city will install renewable energy technology on city property
 - b. Establish ordinances and building codes requiring energy efficiency and encourage use of renewable energy sources.

- 9.11. Actively enforce all land use ordinances, including the various special overlay districts.
12. Protect steep slopes, tree cover, wetlands and other fragile lands through conservation easements, scenic easements, and other available means.
- 10.13. ~~and~~ Require setbacks from the crest of all slopes of 18% or greater, except in the Lower St. Croix Bluffland District where the slope is greater than 12%, ~~with limited exceptions outside of the Lower St. Croix Bluffland District to enable access for subdivisions that result in lots of ten acres or greater, subject to the use of mitigation measures to protect affected steep slopes and conservation easements or other means to restrict further development of the resulting lots.~~
14. Utilize data from the Natural Resources Inventory when considering all land use applications.
15. Develop an Environmental Score Card for the City of Afton.
16. Discourage use of chemical pesticides.
17. Encourage use of organic landscape applications.
18. Encourage integrative pest management.
- 11.19. Protect trout streams from temperature increases.

HOUSING AND LAND USE PLAN

The City's land use philosophy is an outgrowth of its focus on environmental protection and the resulting natural rural character of the City. The protection of groundwater is both essential to, and the result of, the City's low density development approach based on private wells and septic. The City's managed development philosophy is also based on limiting and managing ~~storm water~~~~stormwater~~ run-off to protect the quality of the area's main natural and recreational resource, the St. Croix River.

In the Metropolitan Council's ~~Thrive MSP 2040 Regional Blueprint (December 19, 1996)~~, Afton is designated as "~~Diversified Rural~~~~Permanent Rural~~" and "~~Permanent Agriculture~~." The residents of the City of Afton have consistently supported the concept that Afton remain ~~rural~~~~Permanent Rural and Permanent Agriculture~~.

The residents of the City of Afton value the agricultural economy and rural character that an agricultural environment provides. This Plan intends to preserve agricultural land for permanent agricultural use, and does not accept the belief held by some that agricultural use is merely a temporary use or that agricultural lands are merely a holding area for future residential or other development. Moreover, the community values agricultural land as open space in an increasingly urban environment, a sanctuary for a rural lifestyle that Afton residents have consistently desired to maintain.

Agricultural

After several years of work, and in conformance with the Metropolitan Council's prior Development Framework Plan, in the Comprehensive Plan of 1982, the City of Afton established an Agricultural Zone with a density of 3 dwelling units per quarter-quarter section (40 acres) of land and passed ordinances to enforce that policy. At that time, and continuously to the present, the residents of the City of Afton have valued the agricultural economy and rural character that an agricultural environment provides.

Agriculture plays an important role in preserving the balance of economic conditions in the Twin Cities Metropolitan area, but productive agricultural land is being lost to nonagricultural development. Once agricultural land is developed for nonagricultural residential, commercial or industrial use, it is forever lost to agricultural production.

In April 1980, the State of Minnesota enacted the Metropolitan Agricultural Preserves Act. This act provides a package of benefits designed to give farmers in the seven-county metropolitan area the assurance that they can continue their farm operations on an equal footing with other farmers in the state, without the pressures of urbanization. These benefits include:

1. Agricultural use valuation.
2. A limit on total tax rates so that they cannot exceed 105% of the statewide average in townships for all purposes.
3. Prohibition of special assessments for sewer and water.

4. Protection for normal farm practices -- a local government would be prohibited from enacting ordinances which inhibit normal farm practices unless they bear a direct relationship to the public health and safety.
5. Protection from eminent domain -- before Ag Preserve land can be acquired by eminent domain, it must be shown that there are no reasonable, cost-effective alternatives which would have less of a negative impact on Ag Preserves. The process of review is conducted by the Environmental Quality Board. A suspension of up to one year is possible, but it cannot permanently stop eminent domain (Minn. Stat. §473H.01 – 473H.17).

In order to take advantage of these benefits, a farmer's land must be designated "agricultural" on the city's land use map and zoned at a density of no more than one dwelling unit per quarter-quarter section for residential development. In addition, the farmer must apply for and receive certification from the city stating that the property is eligible for "preserve" status. Once a farmer's land is designated a preserve, the land must remain in agricultural use indefinitely or for eight years after the landowner applies for an expiration of the preserve designation.

Agricultural Zoning District and Agricultural Preserves Overlay District

To address environmental concerns detailed within this plan and to maintain our overall one dwelling per 10 acres (1 per 10) 1/4/40 density, this plan creates an Agricultural Preserves Overlay District. With the Agricultural Preserves Overlay District, the Agricultural District is envisioned to allow for three development scenarios:

1. Agricultural Preserves Overlay District: 1 dwelling unit per quarter-quarter section (approximately 40 acres)
2. Agricultural Zoning: 3 dwelling units per quarter-quarter section (approximately 40 acres);
3. Agricultural Zoning using a Preservation and Land Conservation Development on a minimum of 80 acres: 4 dwelling units per quarter-quarter section: Land developed under this option would be subject to conservation easements, and subdividers would be required to set aside an extensive part of their property for continued farming or conservation. The City intends to provide more conservation-minded intensive land use planning throughout this zone so as to coordinate and link the preservation areas for maximum benefit and minimal impact to the character of the community.

Note that, pursuant to the Agricultural Preserves Act, lands in the Agricultural Preserves Program would only be allowed a density of 1 unit per 40 acres on a specific, designated parcel. (Agricultural Preserves Overlay District).

Residential

According to the 201690 census, there were a total of 1,031 residential housing units in Afton.

Table 2 – Residential Housing Units, 2010~~00~~ Estimates-Census

<u>Table 6. Housing Type</u>	<u>Afton</u>	<u>Afton %</u>	<u>Washington County %</u>	<u>Minnesota %</u>
1-unit, detached	4026	99.50%	73.70%	67.77%
1-unit attached	3	0.30%	11.80%	5.20%
2-units	2	0.20%	1.10%	3.01%
3 or more units	0	0.00%	13.40%	24.02%

	<u>Afton</u>	<u>Afton %</u>	<u>Washington County</u>	<u>Washington County %</u>	<u>MN</u>	<u>Minnesota %</u>
Single-Family Detached	1,139	99.7%	66,590	68.1%	0	67.2%
Townhomes (single-family attached)	0		13,713	14.0%	0	7.3%
Duplex, triplex and quad	4	0.3%	2,841	2.9%	0	4.1%
Multifamily (5 units or more)	0		13,213	13.5%	0	18.0%
Manufactured Home	0		1,333	1.4%	0	3.3%
Other (Boat, RV, etc.)	0		59	0.1%	0	0.0%
Total Housing units	1,143		97,749		2,409,701	

The majority of the housing stock (99.75%) that existed in Afton in 2010~~00~~ was single-unit detached, which is a higher proportion than either Washington County (68.173.7%) or the State of Minnesota as a whole (67.277%).

The predominance of older housing is a unique feature of Afton. Nearly a quarter of Afton’s current housing was built in the 1960’s and 15% of the housing stock was built prior to World War II. Homes in Afton hold their value and have appreciated much more quickly than homes across the county and state.

The high land values in Afton have been an obstacle for those looking to locate affordable housing in the City. This is not likely to change in the near future. ~~The City of Afton is willing to work with Washington County and the Washington County HRA to address low- and moderate-income housing needs and to identify resources to maintain and advance housing affordability in the community, where possible and in a manner consistent with the development pattern of the community.~~

The Rural Residential Zoning District provides for residential development on private wells and on-site sewage treatment systems, with the exception of the rural residential properties within the Historic Village Sewage Treatment Service Area as shown in Figure 5. Each Rural Residential lot requiring requires a minimum of five acres, including 2.5 acres of contiguous buildable area. With the steep topography of a majority of the land in the rural residential zone, the average density attainable in this zone is expected to be about one unit per ten acres.

Old Village

The village of Afton is within the Village Historical Site zoning district, hereinafter referred to as the “Old Village,” located in sections 22 and 23 of Afton along the St. Croix River. The eastern boundary of the Old Village is established by the St. Croix River. It is bounded on the southern and western sides by steep slopes and river bluffs. The northern boundary is the intersection of St. Croix Trail South and Stagecoach Trail South. The Village Historical Site zoning district has two sub-districts, the Village Historical Site-Residential District and the Village Historical Site-Commercial District.

The only commercial ~~zonarea~~ of the city is ~~only~~ located within the Old Village (VHS Zone) which has been certified as a Historic District. This area has been the traditional commercial focus for the city and for area visitors. The existing village atmosphere needs to be preserved while allowing a balanced and complementary mix of residential, recreational, locally attractive commercial and tourist uses. Infrastructure improvements should be designed to eliminate environmental hazards and to sustain the long term viability of the commercial area.

Commercial uses in that portion of the Old Village zoned commercial are within the Lower St. Croix Bluffland and Shoreland Management District and thus allowed by Conditional Use Permit only.

The quaint character and charm of this ~~unique~~, rural village stands in stark contrast to the commercial development happening in neighboring communities. ~~The gas lamps, with their soft, warm light, reinforce the pedestrian-friendly atmosphere.~~ The mix of small businesses and residential properties provides a unique destination experience.

The Old Village has a special place in the history of Afton. The Old Village was platted in 1855 by R. Haskell, Joseph Haskell, H.L. Thomas, and C.S. Getchell. The plat is typical of land divisions of that time: 50 x 150-foot lots and 80-foot wide street rights-of-way designed in a grid pattern overlaying the natural topography and other physical limitations of the site.

Afton’s Old Village offers unique opportunities to business owners and professionals. The Old Village has attracted a number of successful small businesses as well as professionals drawn both to the lifestyle and the natural environment. This mix of businesses fits with the residential development of the Village and, together, they reinforce the context that makes the Old Village such an important feature of the City of Afton. Because of the location and the natural constraints on development, most successful businesses in the Old Village have a focused market. The Old Village is not the place for a big box store but rather an ideal location for specialty shops, services, and as a destination place for ~~recreational~~ tourists.

The Old Village was established on river flats subject to flooding from the St. Croix River. A significant portion of the Old Village lies within the 100-year floodplain and, over the years, there has been periodic flooding. The City of Afton has made substantial improvements to the levee that protects the Old Village to enable the levee to be certified by the Corps of Engineers.; continued maintenance of the levee to standards necessary for certification will be necessary to protect against future flooding and encourage reinvestment in existing properties. The physical features noted above, bluffs to the west and south, the St. Croix River to the east, naturally constrain expansion of the Old Village beyond its present limits.

St. Croix Trail is the main thoroughfare running through the Old Village. It is maintained by Washington County at county standards. The other improved streets in the Old Village are typical of a rural village. The driving surfaces are relatively narrow, causing slower traffic speeds, a safe pedestrian environment and the aesthetic of the Old Village. In 2017 the City of Afton and Washington County upgraded the storm waterstormwater management and improved all streets and sidewalks in the old village.....xxxxx. Street lighting and parking ??? were also improved at this time. Challenging soil conditions have combined with storm waterstormwater management issues to prematurely deteriorate streets, damaging property and negatively impacting the aesthetics of the area. A Village-wide approach to storm waterstormwater management and street maintenance is needed to protect public and private investments in the Old Village.

Old Village residences and businesses have been currently utilizing private wells and on-site sewage treatment systems. ~~and on-site sewage treatment systems.~~ Small lot sizes leave limited room on each property for sewage treatment. The overall density creates has created concerns over the total amount of sewage effluent being discharged into the ground in a limited area. This concern was ~~is~~ heightened by the existing, high groundwater table, which leaves limited vertical space for soil treatment before effluent reaches the groundwater. Adding these concerns to the intermittent flooding, and geography, the Old Village has a small margin for error when it comes to properly treating sewage and therefore must carefully control remodeling and new construction. The City of Afton has taken steps to require periodic inspections of wastewater treatment systems within the Old Village. To mitigate these concerns, the City of Afton has installed is constructing a large subsurface treatment system (LSTS) and a sanitary sewer collection system to serve the Historic Village Sewage Treatment Service Area.

Many of the structures in the Old Village are of historical interest, which is a tremendous asset for the area. Unfortunately, some of these buildings are vacant or in disrepair. Where the historical value is not realized and the properties become blighted, it negatively impacts the entire community.

Levee Certification

Levee Certification

~~There have been various attempts to obtain certification of the levee that protects the Old Village from flooding. While certification remains a long term objective, the reality for the foreseeable future is that the City of Afton and the property owners in the Old Village need to consider strategies for dealing with periodic flooding.~~

A map showing structures and sites of historical value in the City of Afton is included in this plan (Appendix I-Map 8). The city intends to support renewal and reuse of these vacant buildings in order to continue to promote unique opportunities and the revival and survival of small businesses and professionals. Doing this will further the Old Village to enhance the Old Village as a destination that attracts serve as a destination place that attracts local residents and recreational tourists.

Industrial

Approximately 239 acres of the City are zoned for light industrial use. The light industrial area is bounded by I-94 to the north, State Highway 95 to the west, and includes one 70 acre parcel directly abutting the south side of the Interstate Frontage Road and the east side of State Highway 95, as well as all property north of the Interstate Frontage Road between State Highway 95 to the city limits to the east. Light industry and storage related activities will continue to be allowed in the light industrial area under current zoning ordinances. Afton intends to maintain this area as a relatively low intensity transitional use between the interstate highway and the nearby residential zone. The light industrial area provides a location within the city for those uses that would be incompatible with the residential and agricultural districts.

Marine Services

The City has created a separate marine services zoning district to complement the river accesses and marinas and to permit storage and repair of boats and boat trailers by Conditional Use Permit. This District is generally confined to the area just north of the Old Village that was designated General Business and Light Industry in the Township of Afton before the Lower St. Croix River Bluffland and Shoreland Management Ordinance was adopted, and also includes a boat storage facility located on Manning Avenue just north of 8th Street.

State Park

Afton State Park is owned by the State of Minnesota, and is operated as part of the State Park System. The Park provides substantial open space and natural features, as well as recreational opportunities for Afton residents and the general public. It is anticipated that the land will continue to be used in this way far into the future. The State Park consists of 793 acres.

Belwin Conservancy

The Belwin Conservancy - a non-profit conservation organization dedicated to the preservation, restoration, and appreciation of the natural world - owns 1239 1364 acres of preserved land in Afton. Belwin's acreage is substantial and preserves and protects open space in the form of high value native habitats to include oak savanna and woodlands, tall grass prairie, wetland and fens. It is anticipated that this land will also continue to be conserved in this manner far into the future.

Table 3 - Acreages by Zoning District, City of Afton

Commented [JY(C8)]: Verify Acreages in table

Zoning District	Acres
Agricultural	7180
Rural Residential	7702
State Park	793
Industrial	289
VHS	176
Marine Service:	25

Housing and Land Use Goals, Policies and Strategies

The City of Afton establishes the following housing and land use goals:

1. Maintain the city's overall low density.
2. Preserve the rural character of Afton.
3. Encourage agricultural uses.
4. Maintain natural open spaces.
5. Promote wise land stewardship.
6. Maintain a low demand for public expenditures.
7. Avoid the need for extension of the metropolitan wastewater system into the City of Afton
8. Resist development pressures and land speculation, which tend to create urban sprawl.
- ~~9.~~
9. Ensure that development within the Old Village is sensitive to the natural environment that surrounds it.
10. Preserve and revive the rural village character of the Old Village and promote its use as an entry point for recreational activities in the area.
11. Maintain a mix of single-family residential structures and commercial structures containing niche businesses in the Old Village.
12. Provide for adequate parking in the Old Village.
13. Encourage pedestrian-friendly sidewalks and lighting in the Old Village.
14. Promote relatively narrow driving surfaces and slower traffic speeds in the Old Village.
15. Improve access to and residents usage of the city docks and access to the St. Croix River as it relates to Main Street
- ~~14.~~
- ~~15;16.~~ Ensure that untreated wastewater and ~~storm water~~ stormwater do not flow into the St. Croix River.
- ~~16;17.~~ Reduce flood damage potential.

The City of Afton establishes the following housing and land use policies:

1. The overall development density of the City shall not exceed one unit per ten acres.

2. The City shall not approve any requests to permit property then within the municipal boundaries of Afton to be annexed to any other municipality.
3. The City shall maintain the current densities for the following land use classifications:
 - a. Agricultural— 3 dwelling units per quarter-quarter section:
 - b. Preserve Agricultural Preserves - 0 or 1 dwelling unit per quarter-quarter section:
 - c. Agricultural with a Preservation and Land Conservation Development and a minimum of 80 acres— 4 dwelling units per quarter-quarter section:
 - d. Rural Residential - 1 dwelling unit per 5 acres, with a minimum of 2.5 contiguous buildable acres:
 - e. Old Village – 1 unit per 22,500 square feet *(1 unit is considered one structure and may include one commercial unit, one residential unit or a combination commercial unit on the main floor with residential unit above,);
4. The City shall maintain the current minimum lot sizes for newly created lots in each of the following land use classifications:
 - a. Agricultural – 5 acres with a minimum of 2.5 contiguous buildable acres:
 - b. Rural Residential – 5 acres with a minimum of 2.5 contiguous buildable acres:
 - c. Old Village – 22,500 square feet
5. Provide for a mixture of land uses which maintains a rural environment and lifestyle and prevents the extension of the Metropolitan Council's sewer systems, municipal water and sewer systems, and other urban services in the Agricultural and Rural Residential Zoning Districts.
6. Prohibit land uses which are inconsistent with the rural character of the Rural Residential Zoning District and which might place excessive demand on city services.
7. Prohibit rezoning of a parcel from Agricultural to Rural Residential unless, in addition to meeting other criteria, the parcel is more than 50% contiguous to a rural residential zoning district and such a rezoning would not result in development which is inconsistent with the generally rural character of the surrounding area.
8. Discourage residential development on lands suitable for agricultural use and adhere to planning practices that will allow farms to operate without external pressures.
9. ~~Require a minimum of 300 feet of frontage on a public street for all newly created residential lots outside of the Old Village or within the Agricultural and Rural Residential Zoning Districts. (is this too specific – delete and rely on our ordinances instead)~~
10. Prohibit long and narrow lots and irregularly shaped lots except when deemed advisable in the Rural Residential Zoning District.
11. Restrict industrial uses to those which do not pose a threat to air or groundwater:
12. Prohibit hazardous waste facilities within the city limits of Afton.
13. Restrict industrial development to those uses that do not generate large amounts of traffic, sewage, and can operate efficiently on an onsite standard drainfield approved by City ordinances.
14. Restrict industrial uses to those which would not create the need for metropolitan sewer, municipal water or sewer, or additional urban services.
15. ~~Commercial uses will only be in the VHS Zoning District.~~ Retail, restaurants and other similar commercial uses are allowed as principle uses only in the VHS Zoning District. Multi-unit

dwellings within the Old Village are prohibited as they are not in keeping with the context of the community. Accessory commercial uses may be allowed by ordinance in other zones.

~~16. Improve streets, lighting and sidewalks in the Old Village. (keep or call it done?)~~

~~16-17. Monitor and support municipal wastewater collection and treatment serving properties within the Old Village.~~

~~17-18. Encourage economic revitalization of the commercial portions of the Old Village.~~

~~18-19. Continue to allow mixed use structures in the Old Village as they are consistent with the current character of that area.~~

~~19-20. To ensure the preservation of the character of the historic district, current non-conforming uses that are rendered unusable may be restored to their prior use in accordance with state law. let's talk about Lerk's -- comp plan should provide supportive statements to allow building such as that to be restored or revived as a small biz or restaurant~~

The City of Afton will seek to implement the following land use strategies:

1. Prepare a plan establishing priority conservation areas within the Agricultural Preservation Overlay District. The plan should identify areas that are best-suited for continued agricultural production as well as linkages/wildlife corridors that should be established throughout the district.
2. Partner with the Minnesota Land Trust and other independent, non-profit organizations that can serve as holding entities for conservation easements.
3. Study parking needs in the Old Village.
4. Develop and enforce requirements for construction and maintenance of sidewalks and lighting in the Old Village.
5. ~~5.~~ Develop a management plan for unimproved right-of-ways in the Old Village. (what is this? Is it still relevant?)
6. Incorporate design review standards (to be) created by the Design Review/Heritage Preservation Commission for future village construction.
- ~~7. Develop a visionary plan for "Main Street" in conjunction with Washington County's reconstruction of St. Croix Trail. (did this get done yet?)~~
- ~~8. Complete the upgrade of the gas street lights to the new, energy efficient standard that has been used successfully in Town Square Park.~~
7. Encourage the use of conservation or open space design subdivisions where the subdivision permanently preserves open space or agricultural land uses or creates transition zones with adjoining zones or jurisdictions.
8. Develop signage and pedestrian-friendly connections to the St Croix River
9. Protect Steamboat Park as a nature preserve and passive use area.

TRANSPORTATION PLAN

In 1855 the City of Afton consisted of a main street through the center of the village going north and south with short side streets extending up the sides of the bluffs. Today, Afton is served by an extensive network of federal, state, county and local roads.

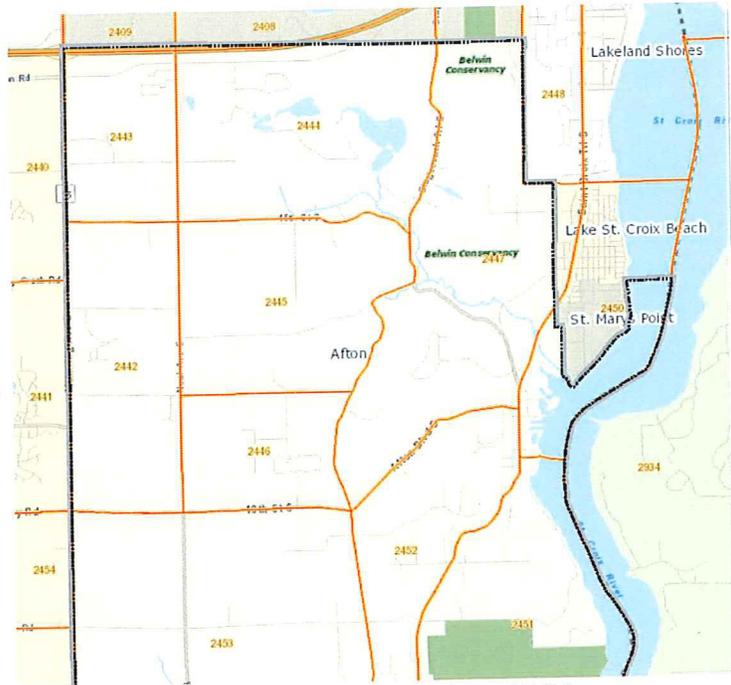

The continued emphasis on a low density, rural development pattern will not result in significantly more roads being added to the City of Afton. The projected household growth is estimated to be 12% over the next 20 years. There is a higher growth forecast for cities and towns adjacent to Afton. This higher adjacent growth forecast may bring more traffic to roads within the City.

[Denmark, Woodbury, Lakeland, West Lakeland data?](#)

Development of the road system over the past few decades has focused on the construction of new roads in cooperation with the developers of the subdivisions. The developer has been responsible for the construction of paved roadways and appropriate drainage to city standards and the city has assumed maintenance and ownership of these roadways one year after completion. ~~Where possible, consideration has been given to creating throughways to better manage traffic flow through the city.~~ Due to the low development density of the Agricultural Zoning District, road development has been deemed unnecessary and is prohibited within this zone.

Traffic Analysis Zones

Metropolitan Council Traffic Analysis Zones (TAZ) for Afton which were used to create the 2030 forecasted traffic volumes are detailed below. The projected growth for 2030 is 150 new homes and an increase in employment by 180.

Traffic Analysis Zones for -Afton (TAZs)

Roads and Highways

A combination of Federal, State, County, and local roads serve Afton as shown in the Existing Transportation System (Figure 3). Ideally, roads are designed to perform a designated function and are located to best serve the type of travel needed. The four functional classifications assigned by the Metropolitan Council that describe roads in Afton are:

1. Principal arterial;
2. Minor arterial ((“A” Minor/”B” Minor);
3. Collector; and
4. Local.

Principal arterial routes are roadways intended to connect metropolitan areas, major industrial centers, etc. that are the highest traffic volume roadways such as interstate highways. Minor arterials connect urban service areas to cities and towns inside and outside the region. The emphasis of minor arterials is on mobility, as opposed to access in the urban area. Collector roadways provide connections between neighborhoods and regional business centers. Local roads provide land access by connecting blocks and land parcels.

Interstate (I)-94 is a principal arterial along the northern border of the City. “A” minor arterial connectors within the City are Trunk Highway (TH) 95, Washington County Road (CR) 18, and CR 21 (from the village to Denmark Township). “B” minor arterial routes are CR 71 and CR 21 (from the village to the north). Collector routes include 15th Street South (from TH 95 east to Oakgreen Avenue South). All other roads in Afton are considered local.

~~Washington County has proposed improvements within the City included in their 2010-2014 Capital Improvement Plan. These improvements include planning and design for CR 21 through the village (downtown) Afton. It is anticipated that the construction of CR 21 through the village will occur in 2015.~~

~~The City of Afton has a draft Capital Improvement Plan 2011 through 2016 that includes roadway improvements within the village Old Village, including Pennington Avenue and other standard roadway maintenance. Other maintenance includes reconstruction of roadway approaches on 50th Street and 15th Street, seal coating, and crack filling.~~

Formatted: Strikethrough, Highlight

What are the major proposed improvements over the next decade?

The remaining unpaved roads in Afton were paved in (2007 or something?). As these and other roads age, maintenance expenses are expected to increase over the next decade. The city is committed to maintaining the transportation infrastructure of Afton in a timely manner. The city should plan for road improvements over the long term and facilitate budgets that include ongoing funding. When necessary, bonding may provide funding for unanticipated improvements, providing such bonding includes planning to return to on-going funding.

Commented [JY(C9)]: Update to reflect what was done this year and anticipated schedule for improvements

{Update Me ^}

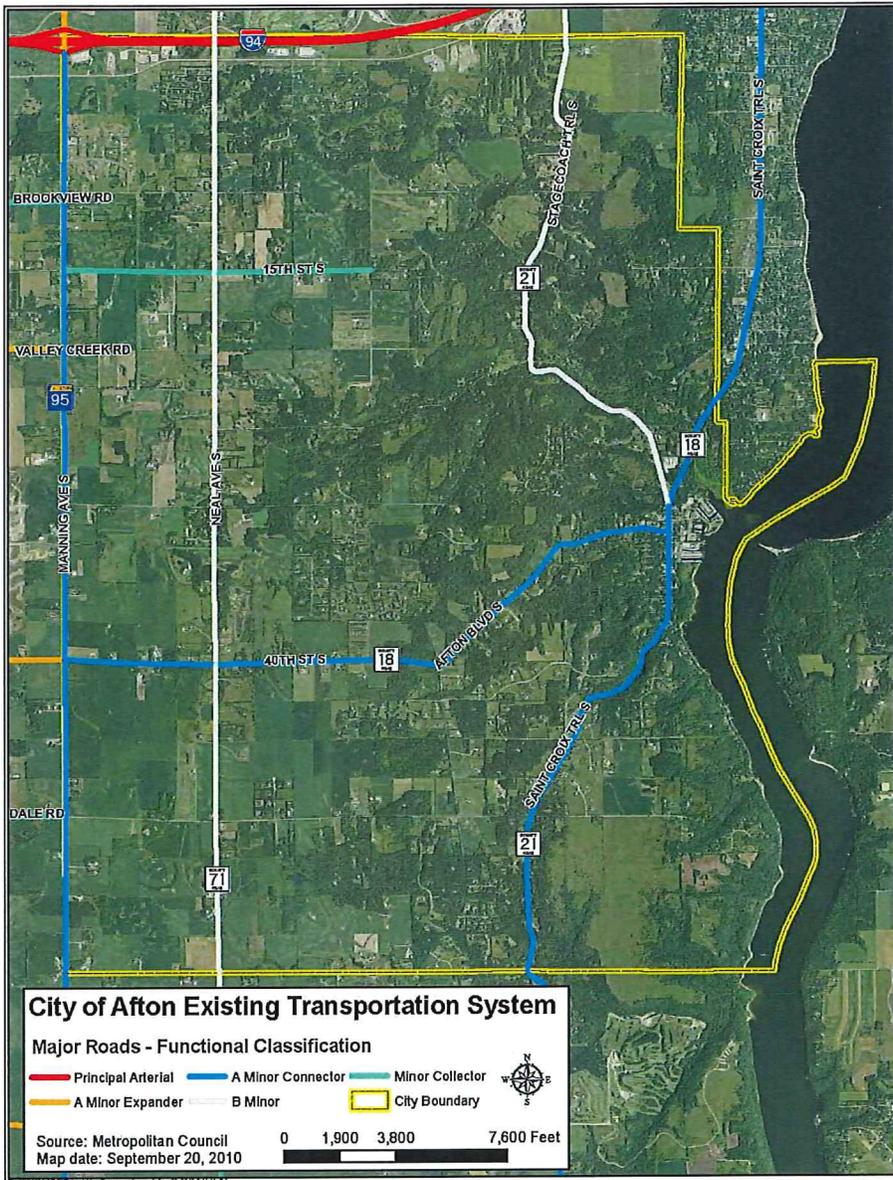

Figure 3 – City of Afton Existing Transportation System, Metropolitan Council

Safety

The City will construct new roadways and reconstruct roadways to meet City standards ~~(what standards are these?)~~ and increase safety and mobility.

Commented [JY(C10)]: Kopitzke to re-write

Access Management

The City encourages the alignment of new access points with other existing access points, the provision of adequate spacing to separate and reduce conflicts, and the consideration of sight distance limitations. The City will use Washington County’s access management requirements as a guide for design standards on local roadways.

Aviation

Afton does not have an airport or landing strip and will not allow any, public or private, due to the lack of central services, suitable land space, fragile soils, and noise pollution. Heliports are likewise prohibited. The City of Afton promotes the protection of airspace navigations and electronic communication. Current City ordinances prohibit any structures, including antennas and wind turbines, over 150 feet in height. Proposed, new structure construction will require a Conditional Use Permit where the applicant will be required to submit a “Notice of Proposed Construction or Alteration” to the Federal Aviation Administration (CFR – Part 77, Form 7460-1).

Transit

Afton is outside of the Metropolitan Transit Taxing District; there is no regular route transit service existing or planned in the City. There is a Park and Ride lot located at I-94 and St. Croix Trail. Washington County provides limited transit service for the elderly and disabled. The City is located in Market Area IV; service options for transit in Market Area IV include Transit Link, formerly called “dial-a-ride”, volunteer driver programs, and ridesharing. The City, in conjunction with its neighboring St. Croix Valley communities and Washington County, may be an advocate for a light rail corridor along I-94 to the St. Croix River. As our population ages, our City may choose to explore the expansion of bus service into our community.

Non-motorized Transportation

While the City of Afton encourages non-motorized transportation, it is not practical as a primary mode of transport outside of the Old Village. However, with the paving of most of Afton’s streets, the City has become a destination for the recreational bicyclist who would enjoy the rolling hills, open spaces, and low traffic volumes within much of the community. Update

Commented [JY(C11)]: Include should width standards for bikers?

Transportation Goals, Policies, and Strategies

The City of Afton establishes the following transportation goals:

1. Ensure safe routes for motor vehicles, bicycles, and pedestrians.
2. Ensure that roadways are adequate for use by emergency vehicles.
3. Provide appropriate roadways for area businesses depending on their location in an industrial zone or within the historic Old Village.
4. Provide reliable access to roadways outside of the City of Afton.
5. Provide and maintain roadways and intersections by the most cost effective means possible.
6. Avoid disruption to the natural environment.
7. Promote safe, contemporaneous use of the roads by motorized and non-motorized traffic, as well as oversized and slow moving farm vehicles and implements.
8. Utilize appropriate design and construction techniques to avoid premature degradation of roads adjacent to waterways.
9. Encourage "Park and Ride" lots for commuters in areas adjoining major thoroughfares.
10. ~~Provide for the possible extension of all local streets in new subdivisions to avoid the need for cul-de-sacs.~~
11. Require right-of-way dedication for existing easement roads and existing streets whenever land development is subject to City Council approval.

The City of Afton establishes the following transportation policies:

1. Prohibit the construction of new streets in the agricultural ~~preservation zoning~~ district except where deemed necessary to allow a property owner to use the property in keeping with the agricultural zoning and to promote land conservation to the maximum extent.
2. Control the upgrading of existing roads and construction of new roads which would serve to encourage non-farm development in the agricultural zone.
3. ~~Require a 150-foot setback along designated collector streets.~~
4. Work with Washington County to restore the historic character of St. Croix Trail through the Old Village as a slow speed, small village street.
5. Prohibit airports, landing strips and heliports within Afton.
6. Update and implement a capital improvement program.

Commented [KK12]: The "150 foot" piece of this is to specific for the comp plan and it is unclear what the rationale for this setback is. Delete or describe the outcome we seek with this policy.

The City of Afton will seek to implement the following strategies:

1. Post speed limits, weight and parking restrictions on City streets, where appropriate.
2. Post share-the-road signs for bicyclists, equestrians and other uses, where appropriate.
3. ~~Incorporate traffic calming into Design road improvements within the Old Village to slow traffic.~~
4. ~~Incorporate traffic calming and place making techniques into road improvements within the Old Village to encourage a pedestrian friendly environment.~~

GROUNDWATER AND SURFACE WATER PLAN

A draft of the City's Surface Water Management Plan is attached, as Appendix G, ~~and has been approved by the appropriate Watershed Districts, and the Metropolitan Council, but has not yet been adopted by Afton City Council.~~

~~Groundwater and Surface Water Goals and Strategies~~

~~The City of Afton establishes the following ground and surface water goals:~~

- ~~1. Support the development and implementation of an effective storm water drainage system for the Old Village and surrounding area.~~
- ~~2. Explore opportunities to prevent future flooding.~~

~~The City of Afton establishes the following ground and surface water strategies:~~

- ~~1. Develop a plan and seek funding opportunities to deal with potential future flooding in the Old Village.~~

~~Additional Goals, Policies and Strategies are contained in Appendix G.~~

This Page Intentionally Left Blank

WASTEWATER AND SANITARY SEWER PLAN

Commented [JY(C13)]: Are there any edits from the NRGCC ?

Properly treating wastewater is a critical concern of the residents of Afton. There is a strong desire to ensure that wastewater is properly treated so as to limit the impact that development in Afton has on the natural environment. There is an equally strong desire to avoid the land use patterns that come with centralized collection and treatment of wastewater. Continued use of highly efficient and well maintained individual sewage treatment systems throughout the rest of the City will avoid public expenditures for central sewer and will prevent development at urban densities.

In 2013, the City completed a Facility Plan to evaluate various wastewater collection and treatment alternatives to replace current individual subsurface treatment systems (ISTS) within the Historical Village Sewage Treatment Service Area (HVSTSA). Included in the study were four alternatives: 1. Leave the system as is; 2. Conduct widespread ISTS replacement; 3. Implement a large subsurface treatment system (LSTS); or 4. Undergo regionalization. The Facility Plan concluded, after consideration of environmental, financial, and technical factors, that the preferred alternative for the city is the implementation of an LSTS system.

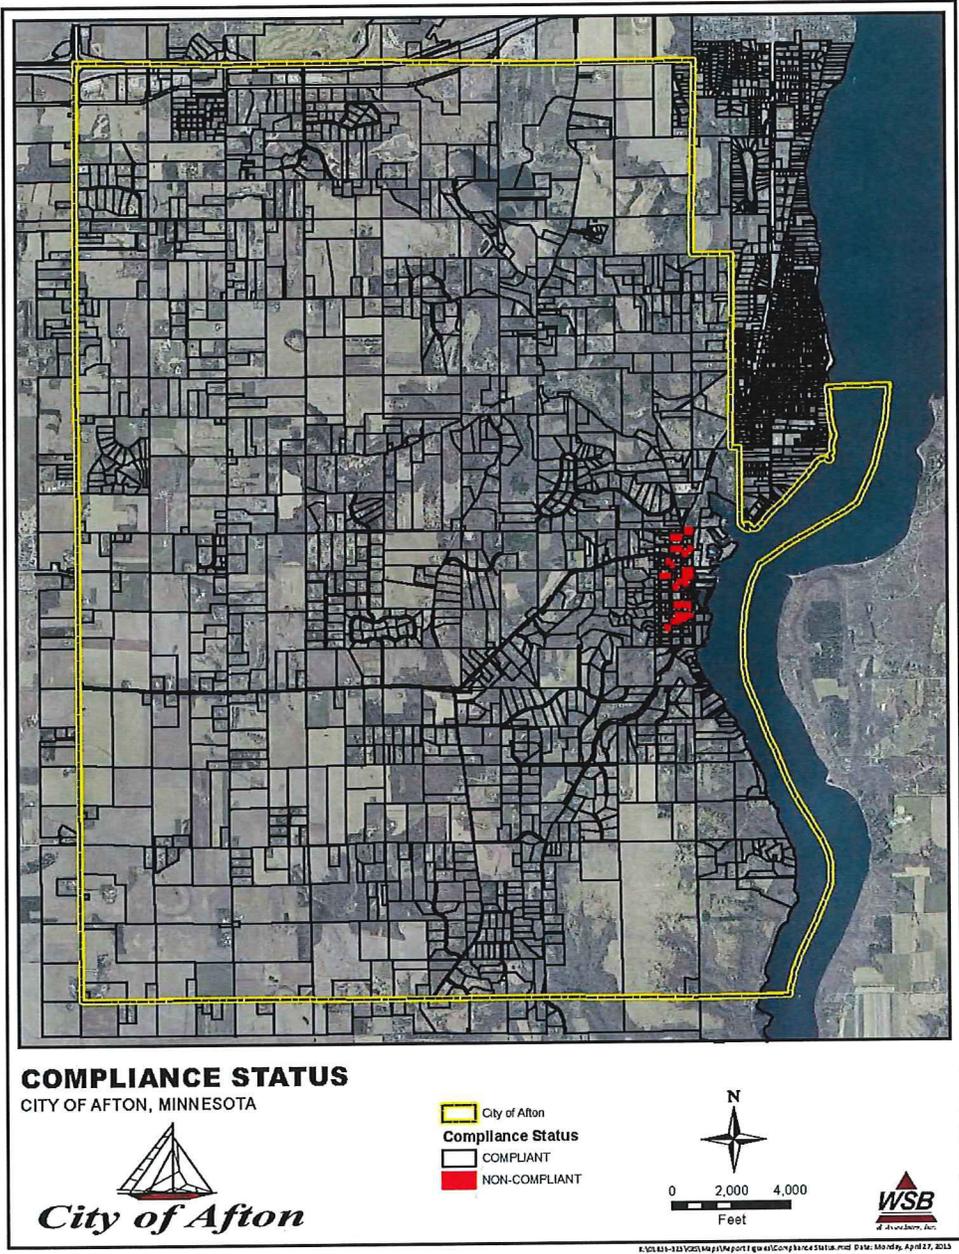

The Facility Plan has been reviewed and approved by the MPCA and the following information summarizes that plan in accordance with comprehensive planning requirements. The entire Facility Plan is included in Appendix M of this Comprehensive Plan.

Existing System

As of 2008, there were 1,119 individual, subsurface sewage treatment systems within the city limits. In addition, there is one community cluster system that serves eleven homes. A survey of the HVSTSA was completed, and the location of surveyed, non-compliant systems are shown in Figure 4. It was estimated that 52% of the existing systems were compliant and meeting setback requirements, with another 18% compliant but not meeting setback requirements.

The current reliance of ISTSs will require the City of Afton to be diligent in protecting residents' health, safety, and welfare. Development restrictions in place limit development in areas with unsuitable soils. Compared with other communities in Washington County, Afton has few soils with a slow percolation rate. Slow percolation rates usually indicate a heavy or tight clay soil which does not allow sewage effluent percolation. A significant area of these soils is in the southeast corner of Afton along the St. Croix River. Other small pockets of these soils occur along the many drainage ways within the City.

Figure 4. Parcels known to have non-compliant sewage treatment systems in the HVSTSA.

Steep slopes are predominant in Afton along the eastern half of the city. These steep slopes follow the major drainage ways. Currently, installation of an on-site sewage treatment system is prohibited on any slope exceeding 12%. Installation of septic systems on slopes over 12% may result in erosion, lateral seepage, and down-slope flow of effluent. The soils with a seasonal high water table or that are wet or subject to periodic flooding are also located along Afton's drainage ways. These soils are not suitable for septic systems since the effluent will either be dispersed into groundwater or will back up into the residence.

To further ensure the health and safety of Afton's residents, the City performs a thorough review of all ISTS designs and provides expert inspection for all installations. Afton has also implemented a maintenance program for existing systems, including an on-site, biennial mandatory inspection and the gradual upgrading of all substandard systems.

The installation, maintenance, and inspection of all ISTSs and LSTSs are regulated by both the City of Afton and Washington County in accordance with Minnesota Rules Chapter 7080. An agreement is in place whereby Washington County provides individual sewage treatment system inspection services within the City (Appendix J – ISTS Inspection Services Agreement). As part of this agreement, the City of Afton has adopted Washington County's ordinance #179 by reference as Afton Ordinance 08-2010. The City has agreed to be consistent with, or more restrictive than, the county.

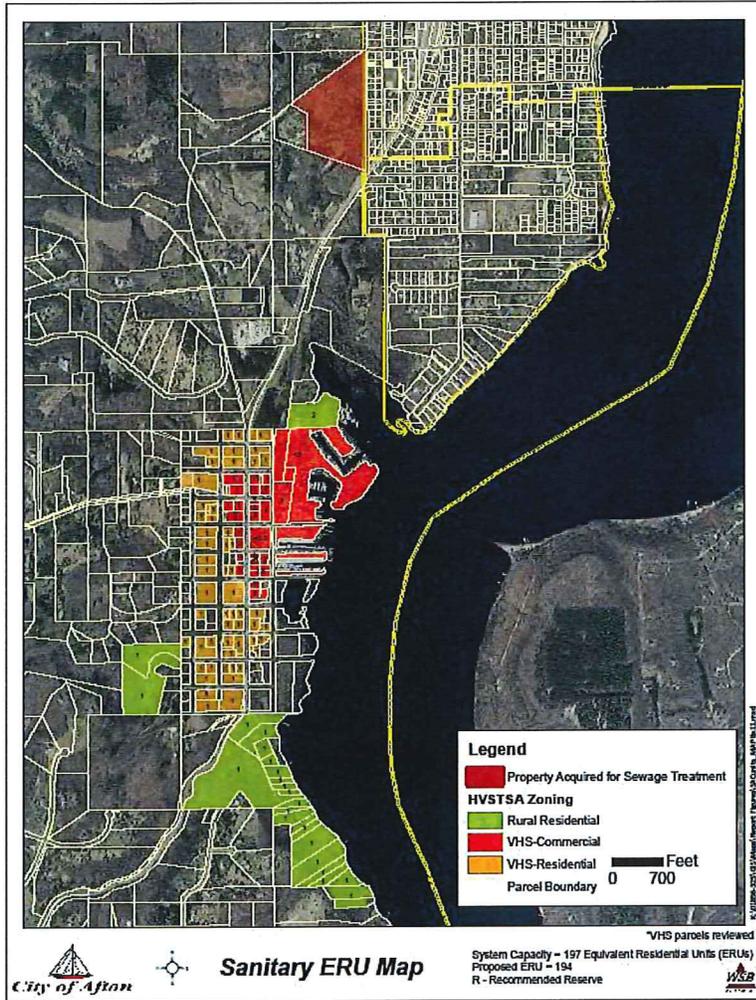

Existing ISTSs in the Historic Village Sewage Treatment Service Area will continue to provide wastewater treatment until the new system is operational - Because not all individuals will connect to the planned system, and others will be connected in stages, any residents remaining on ISTS systems will still be required to undergo biennial inspection.

Planned System Improvements and Projected Wastewater Flows

Due to the high flooding risk in Afton, as well as the non-compliant ISTSs serving residential dwellings and commercial establishments within the Historic Village Sewage Treatment Service Area, there is a need for sanitary sewer system improvements. The implementation of a LSTS will improve water quality and reduce noncompliant systems. The planned improvements will greatly reduce financial, health, and sanitation impacts to the City, residents, businesses, and general public.

There is a desire from the City of Afton, however, to prevent large-scale treatment systems that would allow for widespread commercial and industrial development. For this reason, the City ~~has decided to implement~~ a LSTS with a capacity allowing a modest growth in residential and commercial flows only. The ~~planned~~ system estimates a population growth of 30 people (17%) in the Old Village over the next 20 years. In 2030, the system will serve an estimated 77 households and 22 commercial establishments. The following figure details the Historic Village Sewage Treatment Service Area to be served by the LSTS.

Figure 5. Current Zoning for parcels in the Historic Village Sewage Treatment Service Area.

The following table presents that sanitary sewer flows that will be generated within the Historic Village Sewage Treatment Service Area based on the land use designations as detailed in the city's Facility Plan. The 2020 and 2030 flows are in accordance with the proposed system staging that is described in the following sections. As the LSTS will only accommodate modest growth, it is assumed that the design capacities will be reached by the year 2030.

Land-Use	2013 Flow (gpd)	2020 Flow (gpd)	2030 Flow (gpd)
Residential	0	9,272	18,544
Commercial	0	14,175	28,349
Inflow/Infiltration Allowance	0	2,000	4,000
Total Peak Flow	0	25,447	50,893

Table 5. Estimated sanitary sewer flows.

Collection System Improvements

The **planned** improvements include the construction of a gravity sanitary sewer system, lift stations, and forcemain to convey the residential and commercial wastewater flows generated within the Historic Village Sewage Treatment Service Area to the **proposed** LSTS. Individual sewer services will be connected **in 2017 & 2018** to the pipe sewer and extend to the homes and businesses to be served.

The trunk lines within Saint Croix Trail **will** extend to a main lift station located adjacent to the Steam Boat Park parking area east of the intersection of Saint Croix Trail and Upper 34th Street. The main lift station will **then** convey the wastewater to the LSTS north of the Historic Village Sewage Treatment Service Area. Two additional lift stations located along River Road **will have been be** reconstructed to convey wastewater to the collection system and ultimately the LSTS. The following figure details the **proposed** sanitary sewer collections system improvements within the Historic Village Sewage Treatment Service Area (Figure 6).

Figure 6. Planned sewer system in the Historic Village Sewage Treatment Service Area.

 City of Arton
 Old Village Improvement Project
Conceptual Sanitary Sewer Layout

Planned Sanitary Sewer System

 0 500 Feet

Treatment System

The ~~planned~~ treatment system consists of communal septic tanks, an anoxic denitrification component, recirculation tank, recirculating gravel filter, and a dose tank sized to store and meter flows throughout the day to a seepage cell soil dispersal drainfield. A control building houses various valves and controls. It also serves as a location to store miscellaneous items pertinent to system operation and maintenance.

The treatment system ~~is will be~~ located north of town at an elevation of 720 to 730 feet above mean sea level. The ~~proposed~~ treatment system is above the 500 year, 100 year, 50 year, and 10 year floodplain elevations of 695 ft, 691.5 ft, 690 ft, and 686.5 ft, respectively, and ~~will would~~ be operable during the 25-year flood and protected during a 100-year flood event.

Inflow and Infiltration

Due to Afton's proximity to the St. Croix River, extra precautions ~~will be~~ put in place to ensure the system can withstand flooding. These precautions ~~will also~~ limit inflow and infiltration in the system. Flood-tight castings ~~will be~~ used along the collection system in the floodplain. The collection sanitary sewer will be made from PVC plastic with water-tight gaskets and HDPE including fused joints to keep water from entering the system. In addition, the collection system ~~was will be~~ pressure tested after construction, and the manholes ~~will~~ include joints, rings, and castings that are wrapped to exclude water. The combination of these technologies will greatly reduce the potential for inflow and infiltration. Nonetheless, the system plans include an inflow and infiltration allowance of 4,000 gpd as required by the MPCA permit.

Staging

Residences and commercial establishments that have existing non-compliant septic systems will be required to connect to the system, ~~as soon as it is operational~~. The remaining users in the Historic Village Sewage Treatment Service Area will be required to hook up to the system within eight years of completion. The system will be fully connected prior to 2030, as outlined in the updated Sanitary Sewer Code for the City of Afton (Appendix ~~G.1~~).

Wastewater Goals, and Policies

The City of Afton establishes the following wastewater goals:

1. Reduce the volume of wastewater that is discharged to the soils of Afton.
2. Protect ground and surface waters to the greatest extent practicable by improving the quality of wastewater effluent.

3. Protect the groundwater from chemical or hazardous waste introduced from wastewater systems.
- ~~4. Construct a wastewater collection and treatment system to serve properties within the Historic Village.~~

The City of Afton establishes the following wastewater policies:

1. Encourage the use of individual, highly efficient, wastewater treatment systems for all homes and businesses within Afton.
2. Restrict industrial uses to those which would not create the need for metropolitan sewer or additional urban services.
3. Educate all residents on the proper maintenance of a septic system.
4. Monitor and manage the upgrading of all substandard wastewater treatment systems and require the immediate upgrading or replacement of failing systems.

PARKS AND OPEN SPACES PLAN

Residents value the rural atmosphere of Afton. Five-acre minimum lot sizes outside of the Old Village with houses that do not dominate the views of the countryside, large non-buildable areas of the City, and a large amount of farmland create an open feel to the landscape. *Open spaces, in and of themselves, are valuable to the residents of the City as preserves of nature and sanctuaries for flora and fauna. An adequate area of properly managed parks and open spaces help to protect and recharge surface and groundwater which is used by every resident of the city.*

The preservation of open spaces, including land with steep slopes, woodlands, wetlands, scenic or environmentally sensitive areas, and agricultural land provides many benefits, including the protection of natural resources, the provision of wildlife habitat, and the preservation of the natural, rural countryside character of Afton. The preservation of these open spaces is of key importance to the City. The City will seek to accomplish this preservation through a number of means, including:

1. Parkland dedication;
2. Parkland acquisition;
3. Open space dedication incentives in land development regulations; and
4. Encouraging and supporting the long term continuation of agricultural uses.

Existing Parks and Open Space

The City of Afton, and Afton's natural, open, rural character, greatly benefit from the substantial amount of open space that has been preserved by other public and quasi-public organizations. These open space amenities include a State Park, Regional Parks and the Belwin Conservancy. In addition, the St. Croix River is a magnificent open space amenity, providing scenic and tranquil vistas, and a major recreational resource. Another significant element of Afton's open space is its scattered rural development, including large lots and large expanses of agricultural land. Rather than developing new parks, the focus of the City has been to protect and preserve the existing natural resources and open space amenities.

The City ~~currently has a limited~~ ~~does not have a substantial~~ amount of City-owned open space and developed parks. The City of Afton has one park for active recreation, Town Square Park, and another for passive recreation, Steamboat Park, along the St. Croix River. Both parks are located in the Old Village.

Steamboat Park lies mostly in the floodplain, and is approximately thirty (30) acres in size. It serves as a sanctuary for many birds and various kinds of wildlife. It is one of the few locations on the lower St. Croix River that is not readily accessible for large boat traffic. Recreation is limited to passive recreation, such as picnicking, walking, swimming, bird and wildlife viewing.

Town Square Park is a more active site. The park provides space for basketball, baseball, picnicking, music concerts, skating and group activities. There is playground equipment, a band shell, and a picnic

shelter in the park, as well as primitive restroom facilities. Town Square Park is the focal point of such annual events as the Fourth of July Parade, May Fair, Antique Car Rallies, and Art in the Park.

Over the course of many years, the City has acquired a number of other parcels throughout the city of Afton with the potential to develop into local parks. These public lands were acquired in conjunction with the approval of major subdivisions over the course of several decades and remain undeveloped. In all, there are 53.44 acres of designated park land available for public use.

Community and regional parks (Afton State Park, Lucy Winton Bell Athletic Fields, Lake Elmo Regional Park Reserve, St. Croix Bluffs Regional Park, and Cottage Grove Ravine Regional Park) also provide a variety of different types of recreation to Afton residents.

Rinta Community Garden was created in 2012. The city of Afton received a grant from the Lower St. Croix Valley Community Foundation. These funds were used to remove trees and shrubs on approximately 1 acre of dedicated park land. The garden area was plowed and tilled. There are 21 garden plots on the property as well as compost bins, a garden shed with rain barrels to catch runoff from the shed's roof. Gardeners are primarily from the Lower St. Croix Valley, although a few come from Woodbury, Oakdale and St. Paul.

Two biking/hiking trails pass through the City. One trail follows St. Croix Trail South and extends from the northern edge of the Old Village to Interstate 94. The other, Afton Bluffs Regional Trail, is designated along County Road 18 running east and west, and is not separated from the roadway.

The planned St. Croix Valley Regional Trail will parallel the St. Croix River, and will connect Point Douglas County Park, Carpenter Nature Center, St. Croix Bluffs Regional Park, Afton State Park and the proposed Afton Bluffs Regional Trail. The St. Croix Valley Regional Trail will be aligned parallel and in close proximity to the St. Croix River.

The City seeks to protect a number of significant natural features within its boundaries. These include Trout Brook, Valley Creek and its North Branch, Bissell's Mounds and Kelle's Coulee. Bissell's Mounds in particular are unique to Washington County and are a recognized landmark in the City. Other natural features that are determined to be either unique or geologically sensitive will be preserved as the property around them is developed.

Afton State Park is located south of Afton and a portion of the park (787 acres) is located within the City's boundaries. The park was authorized by legislation in 1969 and was opened to the public in 1982. The terrain of the park is defined by a glacial moraine cut by deep ravines running into the St. Croix River. To Afton's residents, the state park offers many recreational amenities, including: backpack camping, swimming, hiking, fishing, cross country skiing, a prairie landscape, bird watching, and animal sighting. Some of the animals the park offers a home to include hawks, bluebirds, meadowlarks, deer, fox, badgers, turkeys, thirteen-lined ground squirrels, and gray and fox squirrels. Afton State Park is also home to an array of natural vegetation. It contains a combination of oak

savannah and woodlands. Park wildflowers include woodland ephemerals in the spring, butterfly weed and puccoons in the summer, and sunflowers and blazing star in the fall.

Belwin Conservancy also holds considerable land within Afton under a conservation easement ~~with by the the~~ Minnesota Land Trust. ~~This land is designated quasi-public.~~ The Belwin land provides a substantial open space amenity for adjacent land uses, and makes a major contribution to the protection of natural resources, and to the City's rural countryside character.

Parks and Open Space Goals, Policies and Strategies

The City of Afton establishes the following parks and open space goals:

1. Acquire and Preserve adequate amounts of open space to maintain a rural atmosphere (Afton's 2012~~from Afton's 2000 Park Plan~~).
 2. Obtain and maintain designated open spaces to provide for wildlife habitat and migration.
 3. Reconnect Afton's historical linkages to the St. Croix River.
 4. Provide expanded access to the City docks to all residents.
 5. Provide safe areas to ride bicycles within the City.
 6. Provide safe areas to ride horses within the City.
 7. Provide pedestrian friendly means of enjoying Afton's scenic views, wildlife, and connections to the St. Croix River.
 8. Preserve locally important water resources, natural and scenic features.
 9. Periodically identify the recreational needs of Afton citizens and evaluate ways to meet them.
 10. Consider using the Afton Bluffs Regional Trail to create an east-west connection from Afton's Old Village to the City of Woodbury.
 11. Manage all City owned or controlled land to maintain or repair to naturally occurring species of plants and trees plus those necessary to anticipate climate change.
 12. Manage all City owned or controlled land to prevent erosion to recharge groundwater and to increase carbon storage.
- ~~{Text needed to describe policies regarding PUAD kind of setbacks: public access or not, maintenance, other requirements?}~~

The City of Afton establishes the following parks and open space policies:

1. Preserve open spaces and natural resources for passive use and create non-motorized trails through direct purchase, subdivision, scenic and/or conservation easements and other means to include the seeking of grants and the use of matching funds when they are available, but not the use of eminent domain.
2. Maintain central community places.
3. Maintain safe environments for children to play and for the community to gather.
4. Maintain designated open spaces to provide for wildlife habitat and migration.

5. Work cooperatively with Washington County, the Belwin Conservancy, the Science Museum of Minnesota, and other ~~quasi~~-public and private entities to preserve sensitive lands and open space.
6. Develop a forestry park plan to provide for all park and open space land to enhance water quality.
7. Develop a park plan for the five small parcels obtained by the City through park dedication.

The City of Afton establishes the following parks and open space strategies:

1. Develop signage and ~~pedestrian friendly~~pedestrian friendly connections to the St. Croix River.
2. Protect Steamboat Park as a nature preserve and passive use area.
3. Develop a long term plan to obtain additional city owned land in areas identified as desirable to reach city goals.
4. Develop a forestry plan to identify plant and tree species native to Afton and hardy in projected climate conditions.
5. Develop a long term plan to pay for acquisition and development of Afton's parks and open spaces.

This Page Intentionally Left Blank

SOLID WASTE PLAN

The City of Afton does not have and does not want a solid waste disposal site due to the fragile nature of the soils and the underlying geological substrate. The City contracts with trash haulers to collect solid waste.

The City prohibits the burning or dumping of trash and garbage and also has a very active recycling program that encourages citizens to recycle on a regular basis. The City has a contract with a recycling hauler to assist with these efforts.

Solid Waste Goals and Policy

The City of Afton establishes the following solid waste goals:

1. Significantly reduce the amount of material that Afton residents and businesses contribute to landfills or waste incinerators.
2. Explore an organics recycling program. Educate residents about the Environmental Center at 4039 Cottage Grove Drive in Woodbury for disposal of household hazardous waste, electronics and recyclables.
3. Promote "Reduce, Re-use, Recycle" programs.

The City of Afton establishes the following solid waste policy:

1. Provide for trash hauling and recycling service.

This Page Intentionally Left Blank

CITY GOVERNANCE PLAN

The City provides services consistent with those provided in small rural communities, including general street maintenance, parks and recreation facilities, police service, fire protection, building inspection services and general assistance at City Hall. These services have typically been managed from City Hall by a city administrator and small staff.

The City of Afton owns five public buildings located on three parcels of property. The Afton Village Hall, leased to the Afton Historical Society and City Garage are located on Lots 1, 2, and 3 of Block 8 in the Old Village. The Town Hall (leased) and Garage are located in the NW quarter of the SW quarter of Section 10, on Stagecoach Trail South. The City Hall is located on Lots 2, 3, 4, 5, and 6 of Block 11 of the Old Village. The City also owns docks that are leased to a private operator.

Police protection is provided through a contract with the Washington County Sheriff's Department. As the city grows the cost of police protection may increase, and the provision of these services should be a consideration as new developments are proposed. Fire, ambulance, and rescue services are provided by way of a joint powers agreement among the five Lower St. Croix Fire Protection District cities with a fire station located in Lake St. Croix Beach. There are no current plans to add additional public facilities.

City Governance Goals, Policies and Strategies

The City of Afton establishes the following public facilities goals:

1. Maintain a small and efficient government.
2. Properly maintain public facilities.
3. Encourage a "pay-as-you-go" approach to maintaining public facilities and infrastructure.
4. Public subsidy for development, in the form of tax breaks such as Tax Increment Financing, shall be discouraged by the City of Afton.

The City of Afton established the following public facilities policies:

1. The City of Afton will comply with all FAA and Met Council Aeronautic Safety Standards regarding the height of structures and any regulations that pertain to airspace safety and electronic interference over the City of Afton.
2. Comply with all state and federal mandates.
3. City property is to be leased at market value.
4. The City Code shall be properly maintained so that current version is annually provided to all elected and appointed officials.

The City of Afton will seek to implement the following strategies:

1. Institute a budgeting process that annually takes a long-term examination of the City's finances.
2. Prepare a Capital Improvements Plan that outlines the costs and phasing for all maintenance activities required for municipal infrastructure.
3. Consider the creation of a special taxing district or implement the 429 assessment process to facilitate infrastructure improvements within the Old Village.

SYSTEM STATEMENT COMPATIBILITY

The Metropolitan Council has issued a system statement for the City of Afton, which indicates specific issues that must be addressed by the Comprehensive Plan before the Plan is considered complete by the Metropolitan Council. The City of Afton seeks to comply with all aspects of the system statement and has done so as per the following:

1. **Population, Housing, and Employment Forecasts:** The Metropolitan Council (Met Council) provides population, housing and employment forecasts for the City of Afton until the year 2030. These are required to be part of the plan update and are cited in Appendix B - Demographics Information of the Comprehensive Plan.
2. **Density and Land Use Classification:** The Met Council classifies the geographic area that the city of Afton is located in as “diversified rural” and partially “agricultural”.²² Diversified rural areas include a mix of large-lot residential and clustered housing with agricultural and other uses. Density in diversified rural areas must be less than 1 housing unit per 10 acres. Agricultural areas are planned and zoned by local communities to maintain agriculture as the primary long-term land use. The density of agricultural areas may not exceed 1 housing unit per 40 acres.

This plan identifies policies, in the Housing and Land Use Action Plan, that will maintain an overall development density within the parameters required in the system statement.

3. **Aviation Plan and Facilities:** The system statement requires that the City of Afton must include airspace protection in its comprehensive plan. The protection is for potential hazards to air navigation including electronic interference. Airspace protection should be included in local codes/ordinances to control height of structures, especially when conditional use permits would apply. The comprehensive plan should include policy/text on notification to the FAA as defined under code of federal regulations CFR-Part 77, using the FAA Form 7460-1 “notice of proposed construction or alteration.”

There are no public or private airfield facilities within the City of Afton. Furthermore, public and private airfields and heliports are not allowed within the City of Afton. Language has been added to the Public Facilities Action Plan to reflect Afton’s desire to follow all FAA and Met Council Aeronautics Safety Standards in regards to airspace safety in the City of Afton.

4. **Sewage Treatment:** The system statement requires that the City of Afton incorporate current MPCA regulations as part of a program for managing individual, cluster, and large sewer systems in the local comprehensive plan and implement the standards in issuing permits. An overview of Afton’s management program must be included in the community’s local comprehensive plan update.

Afton should include in the sewer element of its comprehensive plan the conditions under which private treatment plants would be allowed. The use of private wastewater treatment plants must be consistent and compatible with the long-term regional wastewater system plan.

Subsurface and cluster septic treatment systems are regulated by Afton City Code which adopted Washington County's septic ordinance by reference and by contract with Washington County to perform permitting and inspections (Appendix J).

5. **Watershed Management:** The system statement requires that a local surface water management plan should be prepared once a watershed plan for the area has been approved. The local surface water management plan must be submitted to both the water management organization(s) within whose watershed the community is located and to the Metropolitan Council for its review.

Afton is required to complete a local surface water management plan. The plan will be submitted to the Met Council for its review concurrent with the review by the watershed management organizations.

6. **Trail Connections:** The system statement indicates that a proposed regional trail following the St. Croix River (St. Croix River Regional Trail) and a planned trail (Afton Bluffs Trail) will be located within or traverse across the City of Afton. These trail alignments are acknowledged in the Parks and Recreation Action Plan.

IMPLEMENTATION PLAN

The City has adopted and does enforce the following ordinances, among others. The ordinances and official controls listed in this section will continue to be enforced in order to implement this Plan.

1. The Zoning Ordinance, as amended from time to time and incorporated by reference herein, implements the primary elements of this Plan by establishing the type, location, and intensity of uses throughout the city as prescribed by this Plan.
2. The Shoreland Management Ordinance, as amended from time to time and incorporated by reference herein, protects wetlands, water bodies and water courses throughout the City as prescribed by this Plan.
3. The Floodplain Ordinance, as amended from time to time and incorporated by reference herein, protects man-made development from floodwaters and the floodplain areas that carry and discharge regional floods by limiting development in those floodplains and floodways in the City as prescribed by this Plan.
4. The Sanitary Sewer Disposal Ordinance, as amended from time to time and incorporated by reference herein, governs the installation, inspection, and maintenance of septic systems as prescribed by this Plan. Further, the City issues septic system permits, inspects installation of all septic systems, reviews soil tests for subdivisions, issues building permits after the City has issued any required zoning use permit, and provides consultant planning services. The City is currently undergoing a Sanitary Sewer code revision to address changes in the Historic Village Sewage Treatment Service Area
5. The Subdivision Ordinance, as amended from time to time and incorporated by reference herein, regulates the division of all property as prescribed by this Plan.
6. The Mining Ordinance, as amended from time to time and incorporated by reference herein, establishes uniform performance standards for sand and gravel extraction and for land reclamation as prescribed by this Plan.
7. The Lower St. Croix River Bluffland and Shoreland Management Ordinance, as amended from time to time and incorporated by reference herein, protects the natural environment and aesthetics of this wild and scenic river as prescribed by this Plan.
8. The International Building Code, as amended from time to time and incorporated by reference herein, protects the safety, health and welfare of residents through regulating standards of construction.

In addition to these ordinances, the city utilizes and depends on the following agencies for reviews of proposed developments and advice on ordinance revisions:

1. Watershed and Water Management Organizations review all proposals within the watershed and recommend permit conditions for building within four different watershed districts within City limits.
2. Minnesota Department of Natural Resources reviews and approves all developments along the St. Croix River, other public water bodies and floodplains.
3. U.S. Army Corps of Engineers reviews and approves alterations of public water bodies.

4. Minnesota Pollution Control Agency reviews pollution problems.
5. Metropolitan Council reviews and approves the comprehensive development plan.
6. Lower St. Croix Valley Volunteer Fire Department recommends ordinances necessary to protect the health and safety of Afton residents, and comments on development proposals.
7. Washington County Soil and Water Conservation District reviews proposed projects and offers recommendations on slope, wetland, and fragile lands protection.
8. Minnesota Department of Transportation and Washington County Highway Department maintain and develop state and county roads.

In 1997, the City amended and recodified its ordinances to eliminate any inconsistencies and to assure conformance with the Comprehensive Plan. In addition to enforcing the existing ordinances that will implement this Plan, the city will update and revise pertinent ordinances in order to implement all of the policies contained in this Plan. As a general overview, it is the City's intent to amend the ordinances and policies in conformance with this plan within required timeframes.

While this plan contains much of the language, intent and purpose of the previous version of the City's Comprehensive Plan, it has been formatted quite differently. The plan is now organized into sections of background followed by topic specific goals. It is the intention of the City of Afton to work, over time, on developing policies and strategies for implementing these goals. When adopted, these would require an amendment to the plan, which would need to follow required procedures for making plan amendments.

Additionally, there are statements of policy or regulation contained in the 1998 version of the plan that were lost in the conversion to the new format, yet are significant and require additional ongoing discussion. It is not the intent of this plan update to modify the spirit and intent of the 1998 plan, but to provide a more clear vision and create a document that can be strongly implemented.

CAPITAL IMPROVEMENTS PROGRAM

The City has limited funding for capital improvements and seeks to minimize debt. As such, the City needs to correlate the tax base with the long-term capital needs of the community, including:

1. Re-pave gravel, reconstruct and sealcoat streets.
2. Repair bridges, streets and culverts as required.
3. Use Park Dedication Funds to upgrade existing facilities and to purchase land and/or easements to add to future park and trail infrastructure.
4. Resolve surface water erosion issues.
5. Manage storm water stormwater run-off on Old Village streets and boulevards.
6. ~~Replace~~ Remove the 201 system in the Old Village ~~when needed~~.
7. ~~Construct the Large Subsurface Treatment System and Sanitary Sewer Collection System for the Historic Village Sewage Treatment Service Area~~
8. ~~Repair sidewalks in the Old Village.~~
9. ~~Expand the use of gas lights in the Old Village.~~

Commented [KK14]: All the Old Village activities are resolved. New CIP activities?

A detailed Capital Improvement Program (CIP) outlining cost estimates, income sources, and payment schedules will be attached to this plan at a future date. The CIP will be reviewed and revised annually. Sound financial planning will be utilized so as not to significantly increase the tax burden on individual property owners in fulfilling the capital improvement plan.

Re: USS Rambo Solar LLC Application for a text amendment to the Zoning Code to allow “solar farms” in the Agricultural District. **This application will not be considered by the Council until its regular meeting of February 20, 2018.**

In response to a request from the applicant, the application by USS Rambo Solar LLC for a text amendment to the Zoning Code to allow “solar farms” in the Agricultural district will not be considered by the Council until the February 20 regular Council meeting. The adjacent property owners have been notified of this timing change (see attached letter). The applicant has provided a letter regarding an additional extension of the 60 day application review period (see attached letter).

Council Action Requested:

No Action Required.

RE: The City Council's consideration of the USS Rambo Solar LLC "solar farm" application is being delayed until the February 20, 2018 City Council meeting.

USS Rambo Solar LLC has requested that the City Council's consideration of their application for a text amendment to the Zoning Code to allow "solar farms" as a conditional use or interim use in the Agricultural District be delayed until the **February 20, 2018** City Council meeting. This application is related to a proposal for a 7.3 acre, 1.0 megawatt ground-mounted solar array at 12560 15th Street S. The application will **not** be considered at the December 19, 2017 Council meeting. If you have any questions regarding this information, please call me at 651-432-8957

Re: Extending 60-day review period for USS Rambo Solar LLC

Hi Ron,

USS Rambo Solar LLC hereby extends the City's 60-day review period. We would like to choose December 25, 2017 as the day that the 60-day review period restarts.

We, the applicant, would like to push the City Council's review of our application to the regularly-scheduled February City Council Meeting.

If you have any questions, please feel free to contact me.

Thank you,

Re: 2018 Planning Commission Meeting Schedule

In 2018, there are three Planning Commission meeting dates that are affected by holiday observances. One is the January 1 meeting, the second is the September 3 meeting and the third is the July 2 meeting. Because the New Year's Day holiday falls on the first Monday of January, the holiday observance requires that the Planning Commission meeting be rescheduled. In the case of a holiday conflict, Planning Commission meetings are generally rescheduled to the following Monday. This would be January 8. The Planning Commission is recommending the meeting be rescheduled to Monday, January 8.

The September 3 Planning Commission meeting falls on the Labor Day holiday. The Planning Commission is recommending the meeting be rescheduled to Monday, September 10.

While the July 2 Planning Commission meeting does not fall on a holiday, it does fall on the Monday prior to the July 4 holiday. The Planning Commission is recommending that the meeting be rescheduled to July 9 to avoid conflicts related to the 4th of July holiday.

Council Action Requested:

Motion regarding revising the 2018 meeting schedule to reflect the January Planning Commission meeting on January 8, the July Planning Commission meeting on July 9 and the September Planning Commission meeting on September 10.

Re: New Decorative Street Lights

The new decorative street lights have been installed along St. Croix Trail in the Downtown Village area. While the general reaction to the lights has been very positive, concerns have been expressed by three property owners. Two of the concerns are regarding the lights being too bright at two residential properties and one of the concerns is regarding the spacing of the lights resulting in insufficient light at a specific commercial property. (Please see the attached emails). The City Engineer is looking into possible options for addressing the concerns regarding the brightness of the lights at the residential properties, and will review those options at the meeting.

The concern about insufficient lighting is related to the Afton Leather property at 3411 St. Croix Trail. (Please see the attached emails). Jessica Mulle, the property owner, has indicated there was a gas lamp in the middle of her property that provided light for the entrance prior to the installation of the new lights. The gas lamp is now gone and because the spacing between the lights gets greater as they move farther from 33rd Street, there is no longer a light at her property. This has made the walk to the entrance of their building uncomfortably dark for the clients of one of the tenants of the building. Ms. Mulle believes it was unfair to her commercial property to begin to space the lights farther apart while still being in the commercial area.

The downtown lighting plan is based on a certain pattern of spacing for the lights. The new lights are spaced 150 feet apart in the area closer to 33rd Street, and they are spaced 250 feet apart starting at 34th Street, which is just north of the 3411 property. Adding a light at the 3411 property would disrupt the spacing pattern. There is a light on the property to the north (Myhers) and one on the property to the south (Selma's) but not on the 3411 property. There is also a light across the street on the south corner of the 34th Street intersection. While these lights provide some light to the 3411 property, including the sidewalk and parking spaces along the property, the amount is less than was provided by the gas lamp.

Council Action Requested:

Motion to provide direction to staff regarding addressing concerns related to the new decorative street lights.

Memorandum

To: *Honorable Mayor and City Council, City of Afton*

From: *Nick Guilliams, PE, City Engineer*

Date: *December 19, 2017*

Re: *December Engineering Staff Report
WSB Project No. 1856-560*

1. Downtown Village Street Lighting

Staff has received several complaints regarding the intensity and brightness of the recently installed street lights as part of the Downtown Village Improvement Project. Residents who have windows on St. Croix Trail have expressed concern that the new lights are significantly brighter than the previous cobra head lights and have requested that the brightness be reduced. WSB has consulted the electrician and several options are available to address the issue:

1. Install dimmer hardware. Would need to get cost estimate from electrician.
2. Lower voltage to reduce intensity. Would be required for all lights.
3. Install film to reduce brightness on sidewalk side of St. Croix Trail.

Action: Provide direction

2. 30th Street Coring Estimate

At the December 12, 2017 Public Works Commission, WSB was asked to get an estimate to perform pavement coring's on 30th Street between Neal to just west of Nybeck. Coring's are necessary to get the thickness of the underlying bituminous and class 5 which allows WSB to recommend the appropriate street rehabilitation method (i.e. Reclamation, Mill and Overlay, or Reconstruction). The total cost to perform the work is \$1,602.

Action: Consider approval of proposal from WSB and Associates in the amount of \$1,602 to perform pavement coring's on 30th Street.

If you have any questions, please contact me at 612-419-3589 or nguilliams@wsbeng.com.

Subject: New Street lamps in Afton

Dear Ron.

The street lamps look beautiful and we approached the initial unveiling with an open mind based on how they are spaced throughout the town as well as how they light up the town/sidewalks from a safety/security perspective. After observing them three nights in a row, we do not feel that the current spacing provides adequate lighting to the sidewalk on our side of the street.

The spacing throughout the downtown commercial area is about 140 to 170 feet between lights with the exception of our property. Once you come to the lamp on the east side of 34th St. (just to the North of our property) the spacing jumps to 250 feet and completely bypasses the entire length of our property including our commercial building and driveway. The entire sidewalk along our property is in the dark from 4:30 when the sun sets forward.

As you know we are a commercial property that includes a counseling center where clients enter our building during evening hours. Even when our porch and property lights are on, the south and north bound sidewalk and parking spaces along our entire lot line, including the sections leading up to the curbside walk and our handicap accessible ramp are completely dark.

To us this is a safety/security issue as well as a fairness issue.

With respect to safety and security:

We have already had several complaints about how dark it is. Our patrons, including many counseling clients with special needs and handicaps, park on the street and use the sidewalk leading up to the handicap ramp to access the building. The darkness creates a safety and security issue for us, as well as a potential liability issue for us and/or the city.

With respect to fairness:

The sidewalk for all commercial buildings are well lit throughout the entire town except for ours. It actually feels like we have been excluded, because of the jump to 250 feet between streetlights that completely bypasses our property. We understand increasing the spacing at the end of the commercial zone going south, but we are not at the end of the commercial zone. The zone does not end until you get to the South line of Selma's, so this gap in the sequencing seems unfair. We have owned this property and had viable businesses and residents in it for the past 20 years, which have all made a positive contribution to downtown Afton. Prior to the project we had a street lamp right in front of our building.

Accordingly, we would like to know what the city is willing to do, to correct this deficiency. Would you let us know what our options are moving forward?

Sincerely,

Karl and Jessica Mulle, 3411 St. Croix Trail, Afton MN

Subject: Re: New Street lamps in Afton

Ron...here is just one of many emails we have received about he lack of lighting on the street in front of our building. We will be sending you more of these...Jessica

Hi jess and Carl

Having a private practice in Afton is wonderful but safety is concern number one . it is pretty dark right in front of the building. We have had clients ask why there is no lighting in front. Please let me know if this will change in the foreseeable future. Thankyou. Karen Heyer. Owner of the house of hope

Re: 2018 Rate Schedule for Engineering Services from WSB

Attached is the 2018 Rate Schedule for engineering services from WSB & Associates, along with a cover letter regarding the rate schedule. The overall increase in the rate schedule is 2.3%. The Council discussed the rate schedule at its December 5 work session.

Council Action Requested:

Motion regarding the approval of the 2018 Rate Schedule for Engineering Services from WSB.

November 14, 2017

Mr. Ron Moore
City Administrator
City of Afton
3033 Saint Croix Trail
PO Box 219
Afton, MN 55001

Re: WSB & Associates, Inc. 2018 Rate Schedule

Dear Mr. Moore:

WSB appreciates your confidence in us as a provider of planning, design, engineering, and construction services. We value our relationship and the opportunities that you provide to our team and look forward to continuing to provide value-added services to you in 2018.

In our continued effort to bring you the best and most innovative services, we've made significant investments in technology:

- We developed a web-based "Client Portal," which will allow our clients improved access to project information and enhanced collaboration opportunities. We will be rolling this out in the coming weeks.
- In order to remain leaders in our industry, this past year we advanced our use of technology including CAD, GIS, and visualization tools that integrate digital platforms to create even more realistic 3D and virtual-reality models.
- We have implemented a web-based document review and collaboration tool, which enables real-time collaboration and co-authoring capabilities related to technical documents.
- We are proud to announce that our Burnsville materials lab is officially AASHTO accredited. This is just another step in our dedication to providing the highest quality and industry-leading services.

We are proud that our dedicated staff helped name WSB a Great Place to Work for the fifth year in a row.

We have attached our 2018 Rate Schedule for our typical services for your information. Like our clients, we are facing a competitive staffing environment and increasing costs of doing business. As in years past, we are committed to controlling our costs and minimizing change in our rates. Our rate schedule includes an overall increase of 2.3% for 2018.

Please accept our sincere gratitude for the opportunity to serve you. I would be happy to answer any questions you have related to our rate schedule or our services. I can be contacted at (763) 541-4800.

Sincerely,

WSB & Associates, Inc.

Todd E. Hubmer, PE
Vice President

Re: Planning for 30th Street Improvements in 2018

The Public Works Committee met on December 12 to recap the 2017 Pavement Management Project and to look ahead to possible projects in 2018. The one street the Committee agreed should be planned for improvement in 2018 is the segment of 30th Street that includes a large culvert that needs replacement next year.

Nick Guilliams recommended that, in preparation for a project in 2018, 30th Street should be core-sampled to determine the depth of pavement and the depth and quality of the base, to ensure the correct improvement is planned. The cost of the coring is \$1,600. Because the coring is best accomplished in above-freezing temperatures, Mr. Guilliams recommended the coring be completed on Monday, December 18, which was projected to have temperatures in the high 30's, rather than waiting until after the December 19 Council meeting, when temperatures were projected to be well below freezing. Staff contacted a majority of the Council members to determine if they were supportive of moving forward with the coring, subject to a formal approval at the December 19 Council, and all were supportive.

Council Action Requested:

Motion regarding the approval of core sampling on 30th Street at a cost not to exceed \$1,600.

Re: Request to Allow Horses on the Cartway Adjacent to 14933 Afton Boulevard

In early 2017, the Council approved the closure of the cartway adjacent to 14933 Afton Boulevard. A key reason for the closure was the need to keep traffic off the cartway to prevent ruts and erosion and to enable the cartway to be regraded and revegetated. Due to continuing vehicular traffic on the cartway after its closure, concrete barriers were placed at both ends of the cartway to prevent vehicular traffic from using the cartway. Since then, Susan Winsor has requested that the concrete barriers be moved apart to create a 5-foot wide gap to enable horses to be ridden on the cartway, which has been a long time practice by her and other residents in the area.

Staff has two concerns about this request. First, the five foot distance between the barriers would enable ATV's to access the cartway. Second, over time, the horses could create a trail that would cause erosion due to the steep slope of the cartway. Staff is requesting direction from the Council regarding the request to move the concrete barriers to provide a 5-foot gap between the barriers to allow horses to use the cartway.

Council Action Requested:

Motion regarding the request to provide a 5-foot gap between the concrete barriers at the two ends of the cartway adjacent to 14933 Afton Boulevard to allow horses to use the cartway.

Re: Parking of Public Works Vehicles at New City Garage

Part of the employment arrangement with Ken Johnson, Public Works Supervisor, is that he uses two of his own vehicles for public works purposes. One vehicle is a large pickup with a snowplow. Several years ago, the City agreed that this vehicle could be stored in the Public Works garage. With the construction of the new Public Works garage, Ken Johnson has requested that the Council confirm that the pickup can continue to be stored in the Public Works garage.

Council Action Requested:

Motion regarding continuing to allow the pickup with the snowplow owned by Ken Johnson to be stored in the Public Works garage.

Re: Paperless Council Meeting Agenda Packets and Necessary Technology

The Council has discussed the idea of providing each Council member with a laptop or tablet to enable the Council meeting packets to be provided to the Council electronically rather than as hardcopies. The Personnel Committee is reviewing this from a cost/benefit perspective, including cost savings related to staff time and paper costs vs. the cost of providing the necessary technology to Council members.

In determining the necessary technology, it is necessary to determine the range of uses the new technology needs to serve. On one hand, if the only use is to download the agenda packet from the City's website and access it in preparation for or at the Council meeting, a Chromebook (with a keyboard but without a windows operating system or the Microsoft Office Suite software) would be sufficient at a very low cost (approximately \$300 each). However, if the Council members want to be able to use Word, Excel or Outlook, either a laptop or a tablet would be required to do that or do it most easily. The cost of these would be in the range of \$1,150 to \$1,500 each. (Please see the attached price quotes). Staff is requesting feedback from the Council members regarding how they would plan to use the device and which type of device they would prefer.

Council Action Requested:

Provide direction regarding the type of device the Council members would prefer as part of moving to paperless agenda packets.

Re: Afton-Lakeland Trail Maintenance

One or more cities along the Afton-Lakeland Trail that was recently improved by the County have requested the County to consider maintaining the trail during the winter to enable pedestrian usage. The County invited the cities along the trail to a meeting on Thursday, December 14 to discuss the maintenance of the trail. Afton has not maintained the trail during the winter. Staff placed this item on the December 19 meeting agenda in case there was the need for Council action regarding the maintenance of the trail resulting from the December 14 meeting.

Council Action Requested:

(Action requested is dependent upon the outcome of the December 14 meeting)

Re: Preservation and Land Conservation Development (PLCD) and Planned Unit Development (PUD)

Council member Richter has requested that the question of whether the Preservation and Land Conservation Development (PLCD) is a Planned Unit Development (PUD) be considered at the December 19 Council meeting. The question arises from Section 12-363 in the Shoreland Management Article of the Zoning Code, that indicates a PUD is not allowed in the Shoreland Overlay District. This relates to the Afton Creek Preserve PLCD subdivision in that, if the PLCD is a PUD, the land within the Shoreland Overlay District may not be able to be included in the PLCD proposal. Attached are Section 12-363 from the Shoreland Management Article of the Zoning Code, as well as the ordinance that amended the Planned Agricultural Unit Development (PAUD) ordinance to create the PLCD.

The City Attorney has indicated that, based on his research, key elements of the PLCD ordinance are similar to key elements of a PUD. He also indicated that the interpretation of the meaning and reach of the particular provisions of the Shoreland Overlay District regulations is within the Council's powers.

The definition of a PUD referenced in the City Attorney's letter is as follows:

“Planned Unit Development” means an area of land, controlled by a landowner, to be developed by a single entity for a number of dwelling units..... the plan for which does not correspond in lot size, bulk, or type of dwelling.....density, lot coverage and required open space to regulations established in one or more zoning districts...

The City's planning consultant has suggested that, while some elements of the PLCD may be similar to those of a PUD, the way that a PUD works is significantly different from the way the PLCD works. A summary of the differences between PLCD zoning and a PUD is that the PLCD has specific standards and alterations from the standards would require separate processing by variance, as opposed to a PUD which has flexible design goals where that flexibility is an integral part of the design/review process. The PLCD does not allow variations from standards or requirements related to lot size, bulk or type of dwellings, lot coverage, or setbacks, and variances would be required to do so. The key characteristic of a PUD is that a broad range of development standards are variable, and they do not require variances. The variations are simply approved as part of the PUD approval.

Council Action Requested:

Motion regarding the question of whether the Preservation and Land Conservation Development (PLCD) is a Planned Unit Development (PUD)

AFTON CODE

3. All other rivers and streams in the City having a total drainage area of greater than two square miles are assigned a tributary streams classification.

Sec. 12-362. Criteria for designation.²⁶⁷

The land use districts in Section 12-363, and the delineation of a land use district's boundaries on the official zoning map, must be consistent with the goals, policies, and objectives of the comprehensive land use plan and the following criteria, considerations, and objectives:

- A. General considerations and criteria for all land uses:
 1. Preservation of natural areas;
 2. Present ownership and development of shoreland areas;
 3. Shoreland soil types and their engineering capabilities;
 4. Topographic characteristics;
 5. Vegetative cover;
 6. In-water physical characteristics, values, and constraints;
 7. Recreational use of the surface water;
 8. Road accessibility;
 9. Socioeconomic development needs and plans as they involve water and related land resources;
 10. The necessity to preserve and restore certain areas having significant historical or ecological value.
- B. General considerations and criteria for all water uses:
 1. Preservation of wildlife habitat;
 2. Preservation of aquatic habitat;
 3. Prevention of shoreline erosion;
 4. Prevention of the degradation of water quality;
 5. Protection of the environment of outdoor educational facilities.
- C. In order to achieve the above-listed objectives and in consideration of the limited size of the water bodies:
 1. No motorized vehicles or craft shall be permitted with the exception of electric motors.
 2. No motorized vehicles or craft used for recreational purposes shall be permitted within 50 feet of the high water mark of any lake or stream.
 3. No aquatic chemicals shall be used without notice to riparian lot owners and the City.
 4. No structure shall remain on the water during winter months for longer than 12 hours.
 5. No lawn chemicals, fertilizers or pesticides shall be applied within 200 feet of the high water mark of any protected water,, pursuant to Chapter 25, Article 1, Section 25-1 to 25-7.

Sec. 12-363. Land use district descriptions.²⁶⁸

The land use districts provided below, and the allowable land uses therein for the given classifications of water bodies, shall be properly delineated on the official zoning map for the shorelands of this community. These land use districts are in conformance with the criteria specified in MN Rules, § 6120.3200, subd. 3:

- P = Permitted use
- C = Conditional Use Permit
- A = Administrative Permit
- N = Not permitted

A. *Land use districts for lakes:*

- | | |

²⁷¹ Code 1982, § 303.5.13

ORDINANCE 06-2008

CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

AN ORDINANCE TO AMEND CHAPTER 12, LAND USE, BY AMENDING SECTION 12-145 AND AMENDING ARTICLE XII, TO ALLOW PRESERVATION AND LAND CONSERVATION DEVELOPMENTS IN THE AGRICULTURAL DISTRICT.

THE CITY COUNCIL OF THE CITY OF AFTON, MINNESOTA HEREBY ORDAINS:

SECTION 1. Section 12-145 of the Afton Code of Ordinances is hereby amended to read as follows:

Sec. 12-145. Preservation and Land Conservation Development (PLCD) Planned Agricultural Unit Development (PAUD) Overlay District.

(a) Purpose. To encourage a more creative and efficient development of land and its improvements through the preservation of agricultural land, natural features and amenities than is possible under the more restrictive application of zoning requirements, while at the same time, meeting the standards and purposes of the comprehensive plan and preserving the health, safety, and welfare of the citizens of the city, in the AG zoning district as provided in Article XII of Chapter 12.

(b) Permitted uses. As permitted and regulated under Chapter 12.

SECTION 2. Article XII of the Code of Ordinances is hereby amended to read as follows:

ARTICLE XII. AFTON PRESERVATION AND LAND CONSERVATION DEVELOPMENTS PLANNED AGRICULTURAL UNIT DEVELOPMENTS

Sec. 12-2371. Scope.

This article applies to Planned Agricultural Unit Development (PAUD) Preservation and Land Conservation Developments (PLCD) in the Agricultural (AG) zoning district.

Sec. 12-2372. General provisions.

A PAUD-PLCD is a tract of land that is developed as a unit under single or unified ownership or controls. A Planned Agricultural Unit Development Preservation and Land Conservation Development may be allowed in the AG-zoning district to preserve prime agricultural land, woodland, wildlife habitat, vistas, groundwater recharge areas, areas with sensitive soils or geological limitations and areas identified in the Comprehensive Plan. Uses not otherwise allowed in the zoning district are prohibited within a planned development unless specifically permitted by provisions of this ordinance. ~~provisions are made.~~

Sec. 12-2373. Purpose.

The purposes of this article are:

- (1) To permit subdivisions in the Agricultural Zoning District which require the construction of a new public street.
- (2) To encourage a more creative and efficient development of land and its

ORDINANCE 06-2008

improvements through the preservation of agricultural land, natural features and amenities than is possible under the more restrictive application of zoning requirements, while at the same time, meeting the standards and purposes of the comprehensive plan and preserving the health, safety, and welfare of the citizens of the city.

- (3) To ~~ensure concentration of~~ preserve open space into more usable areas, to preserve the natural resources of the site and to preserve wildlife habitat and corridors.
- (4) To facilitate the economical provision of streets and public utilities.
- (5) To allow the transfer of development rights (density) within a subdivision in order to preserve agricultural land, open space, natural features and amenities.

Sec. 12-2374. Permitted uses.

The Permitted Uses are:

- (1) Those uses that are permitted in the underlying zoning district;
- (2) Subdivisions that require the construction of a new public street in the AG zoning district;

Sec.12-2375. General standards for approval.

A conditional use permit shall be required for all ~~planned agricultural unit preservation and land conservation~~ planned agricultural unit preservation and land conservation developments. The city may approve the ~~planned unit preservation and land conservation~~ planned unit preservation and land conservation development only if it finds that the development satisfies all of the following standards:

- (1) The preservation and land conservation development is consistent with the comprehensive plan of the city.
- (2) The ~~planned agricultural unit preservation and land conservation~~ development is an effective and unified treatment of the development possibilities on the project site and the development plan provides for the preservation of unique natural amenities.
- (3) The ~~planned agricultural unit preservation and land conservation~~ development can be planned and developed to harmonize with any existing or proposed development in the areas surrounding the project site.
- (4) The tract is, ~~at least, a minimum of 30~~ at least, a minimum of 80 contiguous acres in size ~~unless the applicant can show that a PLCD of less acreage meets the standards and purposes of the comprehensive plan and preserves the health, safety and welfare of the citizens of the city~~ and that all of the following conditions exist:
 - (a) The proposal better adapts itself to the physical and aesthetic setting of the site and with the surrounding land uses than could be developed using strict standards and land uses allowed within the underlying zoning district.
 - (b) The proposal would benefit the area surrounding the project to a greater degree than development allowed within the underlying zoning district.
 - (c) The proposal would provide land use and/or site design flexibility while enhancing site or building aesthetics to achieve an overall higher quality of development than would otherwise occur in the underlying zoning district.

ORDINANCE 06-2008

(d) The proposal would ensure the concentration of open space into more workable or usable areas and would preserve the natural resources of the site more effectively than would otherwise occur in the underlying zoning district.

(5) At least fifty (50) percent of the total tract is preserved as an undeveloped parcel.

Sec. 12-2376. Exceptions to Density, Frontage on a Public Street and Length of Cul de sac requirements:

- (1) The average density over the proposed PAUD PLCD shall not exceed the maximum density permitted in the underlying zoning district. ~~except that the property owner shall be granted a bonus of one dwelling unit per forty contiguous acres preserved in the AG zoning district. All development rights from the preserved forties shall be transferred to the other participating parcel(s) unless the permitted number of lots for dwelling units cannot be platted on the remaining parcel(s), in which case a maximum of one dwelling unit may be permitted on the preserved 40-acre parcel.~~
- (2) The minimum requirement for frontage on an improved public street may be reduced, as long as the minimum lot width at the building setback line is maintained, to encourage and accommodate curvilinear streets that better preserve the rural character or other resources within the PAUD PLCD.
- (3) The maximum length of cul de sacs may be exceeded to accommodate curvilinear streets and other design elements that tend to preserve the rural character or other resources within the PAUD PLCD.

Sec. 12-2377. Coordination with subdivision regulations.

- (1) It is the intent of this article that subdivision review under Chapter 12 be carried out simultaneously with the review of a planned development under this article.
- (2) The plans required under this article must be submitted in a form that will satisfy the requirements of Chapter 12 for the preliminary and final plats.
- (3) Parcels which contain their maximum permitted density or have been previously subdivided to their permitted density may not be joined to a PLCD.

Sec. 12-2378. Pre-application meeting.

Prior to the submission of any plan to the planning commission, the potential applicant is encouraged to meet with the city administrator to discuss the contemplated project relative to community development objectives for the area in question and to learn the procedural steps and exhibits required. This includes the procedural steps for a conditional use permit and a preliminary plat. The potential applicant may submit a simple sketch plan at this stage for informal review and discussion. The potential applicant is urged to seek the advice and assistance of the city staff to facilitate the informal review of the ~~outline plan and preliminary plat~~ simple sketch plan. The pre-application meeting process is entirely optional for the potential applicant and does not constitute an application within the meaning of this section.

Sec. 12-2379. General development plan.

- (1) An applicant shall make an application for a Conditional Use Permit following the

ORDINANCE 06-2008

procedural steps as set forth in Section 12-78.

- (2) In addition to the criteria and standards set forth in Sec. 12-78 of this article for the granting of ~~special~~ conditional use permits, the following additional findings shall be made before the approval of the outline development plan:
 - (a) The proposed PAUD PLCD is in conformance with the comprehensive plan.
 - (b) The uses proposed will not have an undue and adverse impact on the reasonable enjoyment of neighboring property and will not be detrimental to potential surrounding uses.
 - (c) Each phase of the proposed development, as it is proposed to be completed, is of sufficient size, composition, and arrangement that its construction, marketing, and operation are feasible as a complete unit, and that provision and construction of dwelling units and common open space are balanced and coordinated.
 - (d) The PAUD PLCD will not create an excessive burden on parks, schools, streets, and other public facilities and utilities that serve or are proposed to serve the district.
 - (e) The proposed total development is designed in such a manner as to form a desirable and unified environment within its own boundaries.
- (3) The following exhibits shall be submitted to the city administrator by the proposed developer as a part of the application for a conditional use permit:
 - (a) An explanation of the character of the proposed preservation and land conservation development and the manner in which it has been planned to take advantage of the ~~planned development~~ preservation and land conservation development regulations.
 - (b) A statement of the present ownership of all the land included within the ~~planned~~ proposed preservation and land conservation development and a list of property owners within five hundred (500) feet of the outer boundaries of the property.
 - (c) A general indication of the expected schedule of development including progressive phasing and time schedule.
 - (d) A map giving the legal description of the property including approximate total acreage and also indicating existing property lines and dimensions, ownership of all parcels, platting, easements, street rights-of-way, utilities, buildings and use for the property and for the area five hundred (500) feet beyond.
 - (e) Natural features maps or maps of the property and area five hundred (500) feet beyond showing contour lines at no more than two-foot intervals, drainage patterns, wetlands, vegetation, soil and subsoil conditions.
 - (f) A map indicating proposed land uses including housing units and types, vehicular and pedestrian circulation, and open space uses.
 - (g) Full description as to how all necessary governmental services will be provided to the development.
 - (h) An engineering report presenting results of percolation tests and soil analysis of the site.
 - (i) Any additional information requested by the city administrator, planning commission and city council that might be required for clarification of the proposed project.
 - (j) Twenty-five (25) copies of all required information shall be submitted.
- (4) The applicant shall also submit a preliminary plat and all the necessary documentation as required under Chapter 12 for all or that portion of the project to

ORDINANCE 06-2008

be platted. For purposes of administrative simplification, the public hearings required for the conditional use permit and preliminary plat may be combined into one (1) hearing or may be held concurrently.

Sec. 12-2380. Final development plan.

- (1) Within ninety (90) days following the approval of the general development plan with recommended modifications, if any, and the preliminary plat, the applicant shall file with the city administrator a final development plan containing in final form the information required in the general development plan plus any changes recommended by the planning commission and the city council as a result of the public hearing. The applicant shall also submit a final plat for that entire portion to be platted.
- (2) The city administrator shall submit the final development plan and the final plat to the planning commission for review.
- (3) The final development plan and the final plat shall conform to the general development plan and preliminary plat plus any recommended changes by the planning commission or city council to the general development plan and preliminary plat.
- (4) The city council shall review the final development plan and final plat. If the final development plan is approved by the city council, the city administrator shall issue a conditional use permit to the applicant.
- (5) The applicant(s) shall grant a Conservation Easement which shall run with the land in perpetuity to the City of Afton, all of the owners of the lots and parcels to be created in the PAUD PLCD, all land owners of property within Afton abutting the PLCD and the Minnesota Land Trust (or similar independent third party approved by the City of Afton), which restricts the lots and parcels, as well as the development rights on the undeveloped parcel(s), within the PLCD to the number of dwelling units approved for the PAUD PLCD and the land cover and use approved by the City of Afton as a part of this PAUD PLCD. If neither Minnesota Land Trust nor any comparable organization will accept the Conservation Easement the City of Afton, in its sole discretion, may upon a specific finding that no conservation organization will accept a Conservation Easement, waive such requirement. In the case of such waiver, the applicant(s) shall be required to extend the grant of a Conservation Easement to the owners of property that abuts all abutting property to the PLCD.

Sec. 12-2381. Enforcement of development schedule.

The construction and provisions of all of the common open spaces and public and recreational facilities that are shown on the final development plan must proceed at the same phase as the construction of dwelling units. At least once every six (6) months following the approval of the final development plan, the city administrator shall review all of the building permits issued for the planned development and examine the construction which has taken place on the site. If he shall find that the rate of construction of dwelling units is greater than the rate at which common open space and public and recreational facilities have been constructed and provided, he shall forward this information to the city council, which may revoke the ~~planned unit development~~ PLCD permit.

Sec. 12-2382. Conveyance and maintenance of ~~common open space~~ undeveloped parcel.

ORDINANCE 06-2008

- (1) All land shown on the final development plan as ~~common open space~~ an undeveloped parcel must be conveyed to a homeowners association or similar organization provided in an indenture establishing an association or similar organization for the maintenance of the planned development. The ~~common open space undeveloped parcel~~ must be conveyed to the homeowners association or similar organization subject to covenants to be approved by the city council which restrict the ~~common open space undeveloped parcel~~ to the uses specified on the final development plan and which provide for the maintenance of the ~~common open space undeveloped parcel~~ in a manner which assures its continuing use for its intended purpose.
- (2) If a homeowners association is created, the applicant shall submit plans at the time of final plan of development and documents which explain:
 - (a) Ownership and membership requirements.
 - (b) Articles of incorporation and bylaws.
 - (c) Time at which the developer turns the association over to the homeowners.
 - (d) Specific listing of items owned in common including such items as roads, recreation facilities, parking, common open space grounds, and utilities.

Sec. 12-2383. Standards for ~~common or open space undeveloped parcel~~.

No open area may be approved as ~~common open space undeveloped parcel~~ under the provisions of this article unless it meets the following standards:

- (1) The location, shape, size, and character of the ~~common open space undeveloped parcel~~ must be suitable for the planned development.
- (2) ~~Common open space~~ The undeveloped parcel must be used for amenity or recreational purposes. The uses authorized for the ~~common open space undeveloped parcel~~ must be appropriate to the scale and character of the planned development, considering its size, density, expected population, topography, and the number and type of dwellings to be provided.
- (3) ~~Common open space~~ The undeveloped parcel must be suitably improved for its intended use but common space containing natural features worthy of preservation may be left unimproved. The buildings, structures and improvements which are permitted in the ~~common open space undeveloped parcel~~ must be appropriate to the uses which are authorized for the ~~common open space undeveloped parcel~~ and must conserve and enhance the amenities of the ~~common open space undeveloped parcel~~ having regard to its topography and unimproved condition.

Sec. 12-2384. Review and amendments.

- (1) The city administrator shall review all ~~PAUDs~~ PLCDs within the city at least once each year and shall make a report to the city council on the status of the development in each of the ~~PAUD~~ PLCD districts. If the city administrator finds that the development has not commenced within one (1) year after the original approval of the special conditional use for the ~~PAUD~~ PLCD, the city administrator may recommend that the city council revoke the conditional use permit as set forth in Section 12-78 of this chapter. Prior to cancellation or revocation of this permit, the city council shall hold a public hearing at which time all interested parties will be given an opportunity to be heard.
- (2) For additional phases of the ~~PAUD~~ PLCD, if within ~~five (5)~~ two (2) years of completion of the prior phase, the project has not progressed, the city administrator may recommend that the city council determine what action will be taken with the remainder of the project. Prior to determining the outcome of the ~~PAUD~~ PLCD, the ~~city council~~ Planning Commission shall hold a public hearing at which time all

ORDINANCE 06-2008

interested parties will be given an opportunity to be heard.

- (3) Minor changes in the location, placement, and heights of the buildings or structures may be authorized by the zoning administrator if required by engineering or other circumstances not foreseen at the time the final plan was approved.
- (4) Approval of the planning commission and city council shall be required for other changes such as rearrangement of lots, blocks and building tracts. Those changes shall be consistent with the purpose and intent of the approved final development plan.
- (5) Any amendment to the PAUD PLCD shall require the same procedures as for the application for a conditional use permit as set forth in this chapter.
- (6) This Ordinance shall be in full force and effect from the date of the publication of this Ordinance.

SECTION 3. This amendment shall be in full force and effective immediately following its passage and publication.

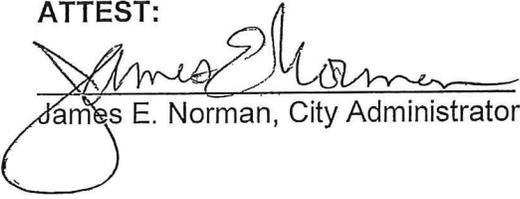

ADOPTED BY THE CITY COUNCIL OF THE CITY OF AFTON THIS 15th DAY OF APRIL, 2008.

Date: December 14, 2017
Re: Resolution of Appreciation to Augsburg University MBA Students for Their Assistance with Afton's Branding Effort – Resolution 2017-57

At its December 11 work session, the Council suggested providing letters of appreciation to the team of Augsburg University Students for their assistance with Afton's branding effort. Staff suggested a resolution of appreciation be adopted to include with the letters. Attached is a resolution of appreciation.

Council Action Requested:

Motion regarding the adoption of resolution 2017-57, a resolution of appreciation to the team of students from Augsburg University for their assistance with Afton's branding effort.

RESOLUTION 2017- 57

CITY OF AFTON
WASHINGTON COUNTY, MINNESOTA

**A RESOLUTION OF APPRECIATION TO TO URSULA GARDNER,
KEVIN FLICEK, JENNIFER FOX AND STACEY JOHNSON, A
TEAM OF STUDENTS IN THE AUGSBURG UNIVERSITY'S MBA
PROGRAM, FOR THE VALUABLE INSIGHTS, ADVICE AND
ASSISTANCE PROVIDED TO THE CITY THROUGH THEIR
AFTON BRANDING PROJECT**

WHEREAS, The City of Afton, through its Afton Branding Committee, is in the process of developing a branding plan for the City; and,

WHEREAS, The Afton Branding Committee developed an overall vision, but needed advice and assistance in fleshing out the brand and providing a structured approach to implementing the brand; and,

WHEREAS, Augsburg University agreed to provide a team of its MBA students to provide the advice and assistance needed; and,

WHEREAS, The student team worked with the Afton Branding Committee to become familiar with their branding vision, researched the history of Afton, conducted a survey to identify how residents, visitors and other members of the public perceive Afton, and used this information, along with their marketing expertise, to develop a plan and structure to guide the City in moving forward with its branding process.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Afton hereby expresses its appreciation to Augsburg University and its team of MBA students for their excellent work in providing information, insights and a plan and structure to guide the City in moving forward with its branding process.

ADOPTED by the Afton City Council this 19th day of DECEMBER, 2017.

Meeting Date Dec. 19, 2017

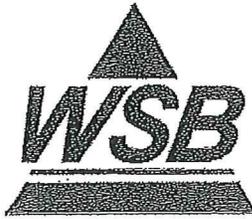

Council Action Memo

To: Mayor Bend and Members of the City Council
From: Ron Moose, City Administrator
Date: December 13, 2017
Re: Update Regarding Agreement with CenturyLink to Provide City-Wide High Speed Internet Service

While CenturyLink has indicated they have completed the internet expansion project for Afton and would like to close out the project, including the City's payment of its \$125,000 cost share, Council member Ross recently learned that the area along Valley Creek Trail does not have high speed internet service. Council member Ross, City Attorney Fritz Knaak and City Administrator Moose met with CenturyLink representatives to discuss this situation.

The Valley Creek Trail area was not included in CenturyLink's project plan because they relied on a map from the State Department of Economic Development that showed the area was already served by Comcast. This map is incorrect. The City's representatives pointed out that, because there is no landline-based internet service to this area, it was required to be served by CenturyLink (see attached agreement).

CenturyLink indicated the Valley Creek Trail area could be served through the Federal Connect America Fund (CAF) program if not for a technicality in the Federal rules related to the CAF program. It was agreed that the City would ask Congresswoman McCollum to contact the FCC to request an exception to the rule. Council member Ross and Administrator Moose then met with Josh Straka, of Congresswoman McCollum's office. He indicated Congresswoman McCollum would request the exception from the FCC. He indicated they should be able to get an answer from the FCC in about two weeks.

Proposal from CenturyLink

In the meantime, CenturyLink has provided the attached draft proposal to provide service to the Valley Creek Trail area by installing new equipment (an additional DSLAM) on Valley Creek Trail. They also propose to add a DSLAM in the area of 45th Street and St. Croix Trail to upgrade service in this area. The proposal involves the City paying 50% of the cost of the two DSLAM's, which is a total cost to the City of \$46,235. Both Council member Ross and staff believe the proposal is not acceptable, based on the responsibility of CenturyLink to serve all areas not served by landline-based internet service.

Staff is requesting direction from the Council regarding responding to the attached proposal and regarding resolving the Valley Creek Trail service issue.

Council Action Requested:

Motion to provide direction to staff regarding responding to the attached CenturyLink draft proposal and regarding resolving the Valley Creek Trail service issue.

Subject: CTL - City of Afton DRAFT Proposal

Mr. Ross,

per our conversation, the attached **DRAFT** proposal is available to the City of Afton. This offer is to close our original agreement, and to resolve the coverage gap on Valley Creek Road. In addition, through our investigation of addresses sent to Kirstin Sersland of CTL, we also propose adding a DSLAM at 45th St and St. Croix Trail, to provide better service to customers currently fed out of the Trading Post Trail DSLAM.

Per our conversation on Friday, after further CenturyLink review, we are able to achieve the desired outcome and speeds with a single DSLAM deployment serving the Valley Creek Road area.

Also per our conversation, our offer is to split the costs of these DSLAM deployments with the City of Afton. At the acceptance of this **DRAFT** agreement, we will mutually agree to consider the original Afton buildout complete.

Please consider the following **DRAFT** offer / terms:

1. CenturyLink will place new equipment (DSLAM) to upgrade service along Valley Creek Rd to a min of 10MB/1MB:
Total Estimated Cost: \$51,000, to be split 50/50 by the City of Afton and CenturyLink (\$26,500 each)
2. CenturyLink will place new equipment (DSLAM) to upgrade service at/along 45th and St. Croix Trail to ensure service at a min of 10MB/1MB:
Total Estimated Cost: \$39,470, to be split 50/50 by the City of Afton and CenturyLink (\$19,735 each)
Total of both Projects at 50% = \$46,235
3. The two proposed DSLAM additions augment a specific set of addresses in the City of Afton; no further claims of coverage are made or offered under this agreement proposal
4. The City and CenturyLink will negotiate a **completion date** for both sites in 2018; frost conditions are *not* included in the estimates above, so completion of the work is assumed to be 'out of frost' months (generally after April/May 2018)
5. In the interest of transparency, CenturyLink will provide an 'actual cost' invoice to the City, showing total actual cost of equipment, materials, labor and overhead (inspection, activation, etc.) for each site above; the City will be responsible for the *lesser* of 50% of Actuals or Estimated Cost, by site (not to exceed Estimated Costs above)
6. If this proposal is accepted, the City and CenturyLink will negotiate **closure of the original agreement** as soon as possible; payment terms of the original agreement become effective at closure, and will proceed per original agreement

7. CenturyLink offers to support and present this offer to the City of Afton, City Council, and/or special committee as requested by the City Council

This is a **DRAFT** proposal and not a legal document. If the City responds with interest, CenturyLink will draft a contract for signature by authorized parties of both CenturyLink and the City of Afton.

Please let me know if you'd like to discuss any detail above. I'm available at your convenience.

Thank you,

Trent Clausen
