levee planting update:

- Afton Levee Proposed Areas PDF

- This statement:

The CPL Grant for the levee project was denied because the grant committee thought it was too small of an area. Elissa from WCD would like to reapply, and the deadline is November 9th.

Here is her proposal: I have attached a map of proposed areas and size. I would suggest at a min we try to hit an acre and include areas A,B and C. If we could include D, E, and F that would put us a little over 2 but is a much larger area that originally proposed. A, B, D and E combo would also be an acre if we want to stick near the center and east side of the levee.
